TO OUR SHAREHOLDERS

June 10, 2005

The convertible securities sector of the market has underperformed the stock and bond markets during the first two quarters of Bancroft's fiscal year, according to Citigroup. This is unusual. Convertibles rarely underperform both markets simultaneously. The causes appear to include a decline in convertible arbitrage activity (usually undertaken by hedge funds and other financial institutions, but not Bancroft) as well as poor performance by the stocks underlying the convertibles.

The convertible arbitrage community has developed several mathematical models for measuring theoretical value for the convertible securities market. Merrill Lynch measures the discount or premium to this theoretical value. They have shown that convertibles have moved to a discount to theoretical value as large as any seen since the summer of 2003.* However, the discount to theoretical value is much lower than it was in early 2002. Further, there is an analytic known as delta. This is a measure of how sensitive a convertible may be to stock price changes. A delta of 50 implies that the convertible should reflect half of the price movement of the underlying common stock. The average delta of the convertible market has fluctuated from 75 in February of 2002 to 36 in September, 2002. The current level is just over 50.**

Taken together, these facts indicate that the convertible market is in a middle area; historically neither cheap nor expensive. This reinforces our position that the bottom-up choices of stock, convertible and industry are important to overall performance.

The Fund's audit committee has recently approved the hiring of our new independent auditors, Tait, Weller & Baker. This audit firm specializes in mutual funds and other firms in the financial services industry.

During the last quarter, industries in which the Fund currently invests that have underperformed include banking/savings and loan, and automotive. We believe these have declined due to the expectation of a rise in short-term interest rates and reduced expectations for economic growth. Industries that outperformed include energy, which has been helped by high oil prices, and consumer goods which have been helped by continued growth in consumer demand.

Bancroft Convertible Fund is the oldest closed-end convertible fund. Founded in 1971, the Fund's strategy has remained consistent, as an equity investment that uses convertible securities to reduce risk and volatility. This strategy tends to outperform in bear markets and lag in bull markets. The performance of the Fund's NAV was in line with the average of its peer-group for the quarter ended April 30, 2005 while outperforming the average for the ten-year period ended April 30, 2005. However, for the one year and five years ended April 30, 2005, Bancroft underperformed the average of the funds in its category. Our peers consist of twelve closed-end convertible funds tracked by Lipper, Inc. and published in the LIPPER CLOSED-END PERFORMANCE ANALYSIS.+ Of the twelve funds in the category, only six, including the Fund, remain unleveraged convertible funds. In addition, many of our competitors have had greater exposure to non-convertible, low-rated, high yield debt than the Fund has had. We believe these factors contributed to the difference in performance between Bancroft and many of the other funds in the group.

1. SIGNIFICANT ACCOUNTING POLICIES AND CHANGE IN ACCOUNTING POLICY

Bancroft Convertible Fund, Inc. (the "Fund"), established in 1971, is registered under the Investment Company Act of 1940 as a diversified, closed-end management investment company. The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements, and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates. The following is a summary of significant accounting policies consistently followed by the Fund in the preparation of its financial statements:

(A) SECURITY VALUATION

Investments in securities traded on a national securities exchange are valued at market using the last reported sales price as of the close of regular trading. Unlisted securities traded in the over-the-counter market and listed securities for which no sales were reported, are valued at the mean between closing reported bid and asked prices as of the close of regular trading. Securities for which quotations are not readily available, restricted securities and other assets are valued at fair value as determined in good faith by management with the approval of the Board of Directors. Short-term debt securities with original maturities of 60 days or less are valued at amortized cost.

(B) SECURITIES TRANSACTIONS AND RELATED INVESTMENT INCOME

Security transactions are accounted for on the trade date (date the order to buy or sell is executed) with gain or loss on the sale of securities being determined based upon identified cost. Dividend income is recorded on the ex-dividend date and interest income is recorded on the accrual basis, including accretion of discounts and amortization of non-equity premium. For certain securities, known as "contingent payment debt instruments," Federal tax regulations require the Fund to record non-cash, "contingent" interest income in addition to interest income actually received. Contingent interest income amounted to 6 cents per share for the six months ended April 30, 2005. In addition, Federal tax regulations require the Fund to reclassify realized gains on contingent payment debt instruments to interest income. At April 30, 2005 there were unrealized losses of approximately 2 cents per share on contingent payment debt instruments.

(C) CHANGES IN METHOD OF ACCOUNTING FOR BOND PREMIUM AND DISCOUNT AMORTIZATION
Effective November 1, 2004, the Fund began amortizing discounts and premiums on all debt securities. Prior to November 1, 2004, the Fund amortized discounts on original issue discount debt securities. The new method of amortization was adopted in accordance with the provisions of the AICP AAudit and Accounting Guide, Audits of Investment Companies and the financial highlights and statement of changes in net assets presented herein have been restated to reflect the new method retroactive to November 1, 2001.

The effect of this accounting change is included in the financial highlights for the years ended October 31, 2002, 2003 and 2004, and in the statement of changes in net assets for the year ended October 31, 2004. The cumulative effect of this accounting change had no impact on the total net assets of the Fund or on distributions for tax purposes, but resulted in a \$103,986 increase in the cost of securities held and a corresponding \$103,986 reduction in the net unrealized gains based on the securities held on November 1, 2001. The impact of this change during the six months ended April 30, 2005 was to reduce net investment income by \$41,542, increase unrealized losses by \$73,950 and increase realized gains by \$115,492. These changes had no effect on previously reported total net assets or total returns.

PAGE 11

(D) FEDERAL INCOME TAXES

The Fund's policy is to distribute substantially all of its taxable income within the prescribed time and to otherwise comply with the provisions of the Internal Revenue Code applicable to regulated investment companies. Therefore, no provision for federal income or excise taxes is believed necessary. At October 31, 2004, the Fund had available for federal income tax purposes unused capital losses of \$4,470,204, available to offset future net capital gains, \$4,045,634 of which expires in 2010 and \$424,570 of which expires in 2011. The

Fund utilized net capital loss carryforwards of \$3,760,644 during the year ended October 31, 2004.

(E) DISTRIBUTIONS TO SHAREHOLDERS

Distributions to shareholders from net investment income are recorded by the Fund on the ex-dividend date. Distributions from capital gains, if any, are recorded on the ex-dividend date and paid annually. The amount and character of income and capital gains to be distributed are determined in accordance with income tax regulations, which may differ from generally accepted accounting principles. The tax character of distributions paid during the fiscal years ended October 31, 2004 and 2003 were \$3,826,570 and \$3,445,042, respectively, both from ordinary income.

(F) MARKET RISK

It is the Fund's policy to invest at least 80% of its assets in convertible securities. Although convertible securities do derive part of their value from that of the securities into which they are convertible, they are not considered derivative financial instruments. However, certain of the Fund's investments include features which render them more sensitive to price changes of their underlying securities. Thus they expose the Fund to greater downside risk than traditional convertible securities, but generally less than that of the underlying common stock. The market value of those securities was \$21,151,918 at April 30, 2005, representing 19.0% of net assets.

2. MANAGEMENT FEE AND OTHER TRANSACTIONS WITH AFFILIATES

The management fee is paid to the investment adviser, Davis-Dinsmore Management Company (the "Adviser"). The contract provides for payment of a monthly advisory fee, computed at an annual rate of 3/4 of 1% of the first \$100,000,000 and 1/2 of 1% of the excess over \$100,000,000 of the Fund's net asset value in such month.

The Adviser furnishes investment advice, office equipment and facilities, and pays the salaries of all executive officers of the Fund. The Fund pays all expenses incurred by it and not assumed by the Adviser and in addition will pay the costs and expenses of its Treasurer's office, up to a maximum of \$25,000 per year, incurred in connection with its performance of certain services for the Fund. These services include the valuation of securities owned by the Fund, and the preparation of financial statements and schedules of the Fund's investments for inclusion in certain periodic reports to the Fund's Board of Directors and to the U.S. Securities and Exchange Commission, the maintenance of files relating to the foregoing, and rent, personnel costs and other overhead expenses allocable to the aforementioned services.

3. PORTFOLIO ACTIVITY

At April 30, 2005 there were 5,588,453 shares of \$.01 par value common stock outstanding (9,000,000 shares authorized). During the six months ended April 30, 2005, 31,315 shares were issued in connection with reinvestment of dividends from net investment income, resulting in an increase in paid-in capital of \$582,476.

Purchases and sales of investments, exclusive of corporate short-term notes, aggregated \$40,147,797 and \$41,028,139, respectively, for the six months ended April 30, 2005.

A distribution of \$0.17 per share from net investment income was declared on May 17, 2005, payable June 29, 2005 to shareholders of record at the close of business June 15, 2005.

BOARD APPROVAL OF ADVISORY CONTRACT

THE INDEPENDENT DIRECTORS OF BANCROFT RENEWED THE ADVISORY CONTRACT WITH DAVIS-DINSMORE MANAGEMENT COMPANY IN NOVEMBER 2004. THE FOLLOWING ARE THE MATERIAL FACTORS AND CONCLUSIONS THAT FORMED THE BASIS FOR THAT APPROVAL.

THE NATURE AND EXTENT OF THE ADVISORY SERVICES PROVIDED BY DAVIS-DINSMORE. Based on the independent directors' review of the services provided and to be provided by Davis-Dinsmore under the Advisory Agreement, the independent directors concluded that the range of services to be provided by Davis-Dinsmore under the Advisory Agreement was appropriate and that Davis-Dinsmore currently is providing services in accordance with the terms of each Advisory Agreement.

THE QUALITY OF SERVICES PROVIDED BY DAVIS-DINSMORE. In reviewing the qualifications of Davis-Dinsmore to provide investment advisory services, the independent directors reviewed the credentials and experience of Davis-Dinsmore's investment personnel, and considered such issues as Davis-Dinsmore's portfolio and product review process, compliance function, use of technology, portfolio administration function, investment research operations and trading operations. Based on the review of these and other factors, the independent directors concluded that the quality of services to be provided by Davis-Dinsmore was appropriate and that Davis-Dinsmore currently is providing satisfactory services in accordance with the terms of the Advisory Agreement.

THE PERFORMANCE OF THE FUND RELATIVE TO COMPARABLE FUNDS. The independent directors reviewed the performance of the Fund against the performance of funds advised by other advisors with investment strategies comparable to those of the Fund. The independent directors noted that although during the past year the Fund has underperformed its peers, the Fund's long-term performance was better, and concluded that no changes should be made to the Fund's investment objective or policies at this time. In addition, the independent directors determined that the Fund's portfolio management team should remain in place.

THE PERFORMANCE OF THE FUND RELATIVE TO INDICES. The independent directors reviewed the performance of the Fund against the performance of applicable indices. The independent directors noted that although during the past year the Fund has underperformed relative to relevant indices, the Fund's long-term comparative performance was better, and concluded that no changes should be made to the Fund's investment objective or policies at this time. In addition, the independent directors determined that the Fund's portfolio management team should remain in place.

MEETINGS WITH THE FUND'S PORTFOLIO MANAGER AND INVESTMENT PERSONNEL. The independent directors noted that they meet regularly with the Fund's portfolio manager and investment personnel, and believe that such individuals are competent and able to continue to carry out their responsibilities under the Advisory Agreement.

OVERALL PERFORMANCE OF DAVIS-DINSMORE. After considering the overall performance of Davis-Dinsmore in providing investment advisory and portfolio administrative services to the Fund, the independent directors concluded that such performance was satisfactory.

FEES RELATIVE TO THOSE OF CLIENTS OF DAVIS-DINSMORE WITH COMPARABLE INVESTMENT STRATEGIES. The independent directors noted that the Fund and Ellsworth Convertible Growth and Income Fund are the only clients of Davis-Dinsmore, and that the advisory fee rates for the funds are the same. The independent directors concluded that, because the fee rates are the same for each fund, the current advisory fee rate of a fund was fair as compared to the rate for the other fund.

FEES RELATIVE TO THOSE OF COMPARABLE FUNDS WITH OTHER ADVISERS. After reviewing the advisory fee rate for the Fund against the advisory fee rates for funds advised by other advisors with investment strategies comparable to those of the Fund, the independent directors determined that the Fund's advisory fee rate was at approximately the median of the funds in its peer group, and concluded that the current advisory fee rate of the Fund was fair and reasonable.

EXPENSE LIMITATIONS AND FEE WAIVERS. The independent directors noted that, although there are no contractual expense limitations or fee waivers in effect for the Fund, Davis-Dinsmore is very diligent in its efforts to keep expenses of the Fund as low as possible. The independent directors also noted that the Fund's expense ratios had declined as a result of the Fund's rights offering in late 2003, but that

PAGE 13

BOARD APPROVAL OF ADVISORY CONTRACT (CONTINUED)

the cost of compliance with regulatory initiatives was increasing. The independent directors concluded that the current level of expenses for the Fund was reasonable.

BREAKPOINTS AND ECONOMIES OF SCALE. The independent directors reviewed the structure of the Fund's advisory fee under the Advisory Agreement, and noted that the fee includes a significant breakpoint when the Fund's assets reach \$100 million. The independent directors noted that breakpoints had become effective as a result of the Fund's 2003 rights offering, which resulted in lower

management fee expenses as a percentage of assets. The independent directors concluded that it was not necessary to implement any further changes to the structure of the advisory fee for the Fund.

PROFITABILITY OF DAVIS-DINSMORE. The independent directors reviewed information concerning the profitability and financial condition of Davis-Dinsmore, noting that Davis-Dinsmore's sole source of revenue was advisory fees from Bancroft and Ellsworth Convertible Growth and Income Fund. The Board noted that Davis-Dinsmore's operations remain profitable, and that the continued success of the two funds will positively impact Davis-Dinsmore's profitability. Based on the review of the profitability of Davis-Dinsmore and its financial condition, the independent directors concluded that the compensation to be paid by Bancroft to Davis-Dinsmore under its Advisory Agreement was not excessive.

BENEFITS OF SOFT DOLLARS TO DAVIS-DINSMORE. The independent directors discussed the fact that there are no third-party soft dollar arrangements in effect with respect to the Fund. The independent directors recognized that Davis-Dinsmore does receive proprietary research from brokers with whom it executes portfolio transactions on behalf of the Fund. This research is used by Davis-Dinsmore in making investment decisions for the Fund. The directors also considered representations made by Davis-Dinsmore that portfolio transactions received best execution. Because such research ultimately benefits the Fund, the Board concluded that it was appropriate to receive proprietary research.

DAVIS-DINSMORE'S FINANCIAL SOUNDNESS IN LIGHT OF THE NEEDS OF THE FUND. The independent directors considered whether Davis-Dinsmore is financially sound and has the resources necessary to perform its obligations under the Advisory Agreement, and concluded that Davis-Dinsmore has the financial resources necessary to fulfill its obligations under the Advisory Agreement.

HISTORICAL RELATIONSHIP BETWEEN THE FUND AND DAVIS-DINSMORE. In determining whether to continue the Advisory Agreement for the Fund, the independent directors also considered the prior relationship between Davis-Dinsmore and the Fund, as well as the independent directors' knowledge of Davis-Dinsmore's operations, and concluded that it was beneficial to maintain the current relationship, in part, because of such knowledge. The independent directors also reviewed the general nature of the non-investment advisory services currently performed by Davis-Dinsmore, such as administrative services, and the fees received by Davis-Dinsmore for performing such services. In addition to reviewing such services, the independent directors also considered the organizational structure employed by Davis-Dinsmore to provide those services. Based on the review of these and other factors, the independent directors concluded that Davis-Dinsmore was qualified to continue to provide non-investment advisory services to the Funds, including administrative services, and that Davis-Dinsmore currently is providing satisfactory non-investment advisory services.

OTHER FACTORS AND CURRENT TRENDS. The independent directors considered the culture of compliance and high ethical standards at Davis-Dinsmore, and the efforts historically and currently undertaken by Davis-Dinsmore to engage in best practices. The independent directors noted Davis-Dinsmore's historical adherence to compliance procedures, as well as the Fund's investment objectives, policies and restrictions. The independent directors concluded that this commitment to adhere to the highest ethical standards was an important factor in their determination that they should continue the Advisory Agreement for the Fund.

After consideration of all of the above factors, the independent directors found that with respect to the Fund: (i) the services provided by Davis-Dinsmore to such Fund and its shareholders were adequate; (ii) such Fund's Advisory Agreement was fair and reasonable under the circumstances; and (iii) the fees payable under such Fund's Advisory Agreement would have been obtained through arm's length negotiations. The independent directors therefore concluded that the Fund's Advisory Agreement was in the best interests of such Fund and its shareholders and should be continued for another year.

MISCELLANEOUS NOTES (CONTINUED)

CHANGE IN THE FUND'S INDEPENDENT ACCOUNTANT

On March 17, 2005, PricewaterhouseCoopers LLP ("PwC") resigned as independent registered public accountants for the Fund. The Fund's audit committee appointed Tait, Weller & Baker as independent accountants for the Fund on April 12, 2005 for the 2005 fiscal year, which appointment was ratified by the Fund's independent directors. The reports of PwC on the Fund's financial statements for each of the fiscal years ended October 31, 2004 and October 31, 2003 contained no adverse opinion or disclaimer of opinion and were not qualified or modified as to uncertainty, audit scope or accounting principles. During the Fund's fiscal years ended October 31, 2003 and October 31, 2004 and during the period November 1, 2004 through March 17, 2005, there have been no disagreements with PwC on any matter of accounting principles or practices, financial statement disclosure, or auditing scope or procedure which, if not resolved to the satisfaction of PwC, would have caused them to make reference thereto in their reports on the financial statements for such years.
