The accompanying notes are an integral part of the financial statements.

NOTES TO FINANCIAL STATEMENTS

1. Significant Accounting Policies

The Adams Express Company (the Company) is registered under the Investment Company Act of 1940 as a diversified investment company. The Company's investment objectives as well as the nature and risk of its investment transactions are set forth in the Company's registration statement.

Security Valuation -- Investments in securities traded on a national security exchange are valued at the last reported sale price on the day of valuation. Over-the-counter and listed securities for which a sale price is not available are valued at the last quoted bid price. Short-term investments (excluding purchased options) are valued at amortized cost. Purchased and written options are valued at the last quoted asked price.

Affiliated Companies -- Investments in companies 5% or more of whose outstanding voting securities are held by the Company are defined as "Affiliated Companies" in Section 2(a)(3) of the Investment Company Act of 1940.

Security Transactions and Investment Income -- Investment transactions are accounted for on the trade date. Gain or loss on sales of securities and options is determined on the basis of identified cost. Dividend income and distributions to shareholders are recognized on the ex-dividend date, and interest income is recognized on the accrual basis.

2. Federal Income Taxes

The Company's policy is to distribute all of its taxable income to its shareholders in compliance with the requirements of the Internal Revenue Code applicable to regulated investment companies. Therefore, no federal income tax provision is required. For federal income tax purposes, the identified cost of securities, including options, at June 30, 2004 was \$1,018,246,195 and net unrealized appreciation aggregated \$296,174,606, of which the related gross unrealized appreciation and depreciation were \$428,062,720 and \$131,888,114, respectively.

Distributions are determined in accordance with income tax regulations which may differ from generally accepted accounting principles. Accordingly, annual reclassifications are made within the Company's capital accounts to reflect income and gains available for distribution under income tax regulations.

3. Investment Transactions

The Company's investment decisions are made by a committee, and recommendations to that committee are made by the research staff.

Purchases and sales of portfolio securities, other than options and short-term investments, during the six months ended June 30, 2004 were \$93,347,907 and \$78,599,807, respectively. Options may be written (sold) or purchased by the Company. The Company, as writer of an option, bears the risks of possible illiquidity of the option markets and from movements in security values. The risk associated with purchasing an option is limited to the premium originally paid. A schedule of outstanding option contracts as of June 30, 2004 can be found on page 11.

Transactions in written covered call and collateralized put options during the six months ended June 30, 2004 were as follows:

On December 27, 2003, the Company issued 2,702,062 shares of its Common Stock at a price of \$12.09 per share (the average market price on December 8, 2003) to stockholders of record on November 24, 2003 who elected to take stock in payment of the distribution from 2003 capital gain and investment income.

The Company may purchase shares of its Common Stock from time to time at such prices and amounts as the Board of Directors may deem advisable.

Transactions in Common Stock for 2004 and 2003 were as follows:

	Shares		Amount	
	Six months ended June 30, 2004	Year ended December 31, 2003	Six months ended June 30, 2004	Year ended December 31, 2003

The Company has an employee incentive stock option and stock appreciation rights plan which provides for the issuance of options and stock appreciation rights for the purchase of up to 2,610,146 shares of the Company's Common Stock at 100% of the fair market value at date of grant. Options are exercisable beginning not less than one year after the date of grant and extend and vest over ten years from the date of grant. Stock appreciation rights are exercisable beginning not less than two years after the date of grant and extend over the period during which the option is exercisable. The stock appreciation rights allow the holders to surrender their rights to exercise their options and receive cash or shares in an amount equal to the difference between the option price and the fair market value of the Common Stock at the date of surrender.

Under the plan, the exercise price of the options and related stock appreciation rights is reduced by the per share amount of capital gain paid by the Company during subsequent years. 5. Retirement Plans

The Company's non-contributory qualified defined benefit pension plan covers all full-time employees with at least one year of service. Benefits are based on length of service and compensation during the last five years of employment. The Company's policy is to contribute annually to the plan those amounts that can be deducted for federal income tax purposes, plus additional amounts as the Company deems appropriate in order to provide assets sufficient to meet benefits to be paid to plan participants. During the six months ended June 30, 2004, no contributions to the plan have been made. The Company presently does not anticipate making any contributions to the plan in 2004.

In addition, the Company has a nonqualified defined benefit plan which provides eligible employees with retirement benefits to supplement the qualified plan.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

- -----

To the Board of Directors and Stockholders of
The Adams Express Company:

In our opinion, the accompanying statement of assets and liabilities, including the schedule of investments, and the related statements of operations and of changes in net assets and the financial highlights present fairly, in all material respects, the financial position of The Adams Express Company (hereafter referred to as the "Company") at June 30, 2004, and the results of its operations, the changes in its net assets and the financial highlights for each of the fiscal periods presented, in conformity with accounting principles generally accepted in the United States of America. These financial statements and financial highlights (hereafter referred to as "financial statements") are the responsibility of the Company's management; our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these financial statements in accordance with the standards of the Public Company Accounting Oversight Board (United States), which require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatements. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits, which included confirmation of securities at June 30, 2004, by correspondence with the custodian and brokers, provide a reasonable basis for our opinion.
