DIVIDEND REINVESTMENT PLANS

Each Fund offers an automatic dividend reinvestment program. If Fund shares are registered in your name and you are not already reinvesting dividends but would like to do so, contact the dividend plan agent, Mellon Investor Services, L.L.C., at 800 851-9677. You will be asked to put your request in writing. If you have shares registered in "street" name, contact your financial advisor or the broker/dealer holding the shares.

Under the current policies of Delaware Investments Arizona Municipal Income Fund, Delaware Investments Florida Insured Municipal Income Fund, Delaware

Investments Minnesota Municipal Income Fund, and Delaware Investments Minnesota Municipal Income Fund II, all distributions of net investment income and capital gains to common stock shareholders are automatically reinvested in additional shares unless shareholders elect to receive all dividends and other distributions in cash paid by check mailed directly to shareholders by the dividend plan agent. Under the current policies of Delaware Investments Colorado Insured Municipal Income Fund and Delaware Investments Minnesota Municipal Income Fund III, distributions of net investment income and capital gains to common shareholders will be paid in cash unless shareholders notify Mellon Investor Services, L.L.C. of their desire to participate in the dividend reinvestment program.

After each Fund declares a dividend or determines to make a capital gains distribution, the plan agent will, as agent for the participants, receive the cash payment and use it to buy shares in the open market on the American Stock Exchange. The Funds will not issue any new shares in connection with the plan. You can contact Mellon at:

(1) Ratios and portfolio turnover have been annualized and total return has not been annualized.

(2) As required, effective April 1, 2001, the Fund adopted the provisions of the AICPA Audit and Accounting Guide for Investment Companies that required amortization of all premiums and discounts on debt securities. The effect of these changes for the year ended March 31, 2002 was an increase in net

investment income per share of \$0.002, a decrease in net realized and unrealized gain (loss) per share of \$0.002, and an increase in the ratio of net investment income to average net assets of 0.02%. Per share data for periods prior to April 1, 2001 have not been restated to reflect these changes in accounting.

- (3) Total investment return is calculated assuming a purchase of common stock on the opening of the first day and a sale on the closing of the last day of each period reported. Dividends and distributions, if any, are assumed for the purposes of this calculation, to be reinvested at prices obtained under the Fund's dividend reinvestment plan. Generally, total investment return based on net asset value will be higher than total investment return based on market value in periods where there is an increase in the discount or a decrease in the premium of the market value to the net asset value from the beginning to the end of such periods. Conversely, total investment return based on net asset value will be lower than total investment return based on market value in periods where there is a decrease in the discount or an increase in the premium of the market value to the net asset value from the beginning to the end of such periods.
- (4) Ratios do not reflect the effect of dividend payments to preferred shareholders.
- (5) Ratio reflects total net investment income less dividends paid to preferred shareholders from net investment income divided by average net assets applicable to common shareholders.
- (6) Excluding any accumulated but unpaid dividends.

(1) Ratios and portfolio turnover have been annualized and total return has not been annualized.

(2) As required, effective April 1, 2001, the Fund adopted the provisions of the AICPA Audit and Accounting Guide for Investment Companies that required amortization of all premiums and discounts on debt securities. The effect of this change for the year ended March 31, 2002 was an increase in net investment income per share of \$0.007, a decrease in net realized and unrealized gain (loss) per share of \$0.007, and an increase in the ratio of

net investment income to average net assets of 0.04%. Per share data and ratios for periods prior to April 1, 2001 have not been restated to reflect this change in accounting.

- (3) Total investment return is calculated assuming a purchase of common stock on the opening of the first day and a sale on the closing of the last day of each period reported. Dividends and distributions, if any, are assumed for the purposes of this calculation, to be reinvested at prices obtained under the Fund's dividend reinvestment plan. Generally, total investment return based on net asset value will be higher than total investment return based on market value in periods where there is an increase in the discount or a decrease in the premium of the market value to the net asset value from the beginning to the end of such periods. Conversely, total investment return based on net asset value will be lower than total investment return based on market value in periods where there is a decrease in the discount or an increase in the premium of the market value to the net asset value from the beginning to the end of such periods.
- (4) Ratios do not reflect the effect of dividend payments to preferred shareholders.
- (5) Ratio reflects total net investment income less dividends paid to preferred shareholders from net investment income divided by average net assets applicable to common shareholders.
- (6) Excluding any accumulated but unpaid dividends.

TO FINANCIAL STATEMENTS

DELAWARE INVESTMENTS CLOSED-END MUNICIPAL BOND FUNDS
September 30, 2005 (Unaudited)

Delaware Investments Arizona Municipal Income Fund, Inc. ("Arizona Municipal Fund"); Delaware Investments Colorado Insured Municipal Income Fund, Inc. ("Colorado Insured Municipal Fund"); Delaware Investments Minnesota Municipal Income Fund, Inc. ("Minnesota Municipal Fund"); Delaware Investments Minnesota Municipal Income Fund II, Inc. ("Minnesota Municipal Fund II") and Delaware Investments Minnesota Municipal Income Fund III, Inc. ("Minnesota Municipal Fund III") are organized as Minnesota corporations and Delaware Investments Florida Insured Municipal Income Fund ("Florida Insured Municipal Income Fund") is organized as a Massachusetts Business Trust (each referred to as a "Fund" and collectively as the "Funds"). Arizona Municipal Fund, Florida Insured Municipal Fund and Minnesota Municipal Fund II are considered diversified closed-end management investment companies and Colorado Insured Municipal Fund, Minnesota Municipal Fund and Minnesota Municipal Fund III are considered non-diversified closed-end management investment companies under the Investment Company Act of 1940, as amended. The Funds' common shares trade on the American Stock Exchange. The Funds' preferred shares are traded privately through a remarketing agent.

The investment objective of each Fund is to provide high current income exempt from federal income tax and from the personal income tax of its state, if any, consistent with the preservation of capital. Florida Insured Municipal Fund will generally seek investments that will enable its shares to be exempt from Florida's intangible personal property tax. Each Fund will seek to achieve its investment objective by investing substantially all of its net assets in investment grade, tax-exempt municipal obligations of its respective state.

1. SIGNIFICANT ACCOUNTING POLICIES

The following accounting policies are in accordance with U.S. generally accepted accounting principles and are consistently followed by the Funds.

Security Valuation - Long-term debt securities are valued by an independent pricing service and such prices are believed to reflect the fair value of such securities. Short-term debt securities having less than 60 days to maturity are valued at amortized cost, which approximates market value. Other securities and assets for which market quotations are not readily available are valued at fair value as determined in good faith under the direction of each Fund's Board of Directors. In determining whether market quotations are readily available or fair valuation will be used, various factors will be taken into consideration, such as market closures, aftermarket trading or significant events after local market trading (e.g., government actions or pronouncements, trading volume or volatility on markets, exchanges among dealers, or news events).

Federal Income Taxes - Each Fund intends to continue to qualify for federal income tax purposes as a regulated investment company and make the requisite distributions to shareholders. Accordingly, no provision for federal income

taxes has been made in the financial statements.

Use of Estimates - The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Other - Expenses common to all funds within the Delaware Investments Family of Funds are allocated amongst the funds on the basis of average net assets. Management fees and some other expenses are paid monthly. Security transactions are recorded on the date the securities are purchased or sold (trade date). Costs used in calculating realized gains and losses on the sale of investment securities are those of the specific securities sold. Interest income is recorded on the accrual basis. Discounts and premiums are amortized to interest income over the lives of the respective securities. Each Fund declares and pays dividends from net investment income monthly and distributions from net realized gain on investments, if any, annually. In addition, in order to satisfy certain distribution requirements of the Tax Reform Act of 1986, the Funds may declare special year-end dividend and capital gains distributions during November or December to shareholders of record on a date in such month. Such distributions, if received by shareholders by January 31, are deemed to have been paid by the Funds and received by shareholders on the earlier of the date paid or December 31 of the prior year.

The Funds receive earnings credits from their custodian when positive cash balances are maintained, which are used to offset custody fees. The expense paid under the above arrangement is included in custodian fees on the Statements of Operations with the corresponding expense offset shown as "expense paid indirectly." The amount of this expense for the six months ended September 30, 2005 was as follows:

	Arizona Municipal Fund	Colorado Insured Municipal Fund	Florida Insured Municipal Fund	Minnesota Municipal Fund	Minnesota Municipal Fund II	Minnesota Municipal Fund III
	-----	-----	-----	-----	-----	-----
Earnings Credits	\$1,492	\$1,937	\$1,298	\$1,297	\$2,377	\$1,115

2. INVESTMENT MANAGEMENT, ADMINISTRATION AGREEMENTS AND OTHER TRANSACTIONS WITH AFFILIATES

In accordance with the terms of its respective investment management agreement, each Fund pays Delaware Management Company (DMC), a series of Delaware Management Business Trust and the investment manager, an annual fee of 0.40% which is calculated daily based on the average weekly net assets of each Fund, including assets attributable to any preferred stock that may be outstanding.

DMC has voluntarily agreed to waive that portion, if any, of its management fee and reimburse the Minnesota Municipal Fund to the extent necessary to ensure that annual operating expenses, exclusive of taxes, interest, brokerage commissions, remarketing and rating agency fees, certain insurance costs and extraordinary expenses, do not exceed 0.72% of average daily net assets of the Fund, including assets attributable to any preferred stock that may be outstanding, through September 30, 2006. This waiver may be revoked at any time.

Delaware Service Company, Inc. (DSC), an affiliate of DMC, provides accounting and administration services. Effective May 19, 2005, the Funds pay DSC a monthly fee computed at the annual rate of 0.04% of the Funds' average daily net assets for accounting and administration services. Prior to May 19, 2005, the Funds paid DSC a monthly fee based on average net assets subject to certain minimums for accounting and administration services.

The difference between book basis and tax basis components of net assets are primarily attributable to tax deferral of losses on wash sales and tax treatment of market discount and premium on debt instruments.

For federal income tax purposes, capital loss carryforwards may be carried forward and applied against future capital gains. Capital loss carryforwards outstanding at March 31, 2005 will expire as follows:

	Minnesota Municipal Fund II -----	Minnesota Municipal Fund III -----
2006	\$ --	\$ 6,539
2008	376,004	56,856

For the six months ended September 30, 2005, each Fund had capital gains (losses), which may reduce (increase) the capital loss carryforwards as follows:

Arizona Municipal Fund -----	Minnesota Municipal Fund II -----	Minnesota Municipal Fund III -----
\$ (30,305)	\$168,618	\$37,267

For financial reporting purposes, capital accounts are adjusted to reflect the tax character of permanent book/tax differences. For the six months ended September 30, 2005, the Funds recorded an estimate of these differences since the final tax characteristics cannot be determined until fiscal year end. Reclassifications are primarily due to tax treatment of market discount and premium on certain debt instruments. Results of operations and net assets were not affected by these reclassifications. For the six months ended September 30, 2005, the Funds recorded the following reclassifications.

	Arizona Municipal Fund -----	Minnesota Municipal Fund -----	Minnesota Municipal Fund II -----	Minnesota Municipal Fund III -----
Accumulated net investment income	\$(8,134)	\$(512)	\$(2,709)	\$(1,248)

5. CAPITAL STOCK

Pursuant to their articles of incorporation, Arizona Municipal Fund, Colorado Insured Municipal Fund, Minnesota Municipal Fund, Minnesota Municipal Fund II, and Minnesota Municipal Fund III each have 200 million shares of \$0.01 par value common shares authorized. Florida Insured Municipal Fund has been authorized to issue an unlimited amount of \$0.01 par value common shares. The Funds did not repurchase any shares under the Share Repurchase Program during the six months ended September 30, 2005. Shares issuable under the Funds' dividend reinvestment plan are purchased by the Funds' transfer agent, Mellon Investor Services, LLC, in the open market.

For the six months ended September 30, 2005, the Funds did not have any transactions in common shares.

The Funds each have one million shares of \$0.01 par value preferred shares authorized, except for Florida Insured Municipal Fund, which has an unlimited amount of \$0.01 par value preferred shares authorized. Under resolutions adopted by the Board of Directors, Minnesota Municipal Fund is allowed to issue up to 400 preferred shares, of which the entire amount was issued on August 6, 1992. On May 14, 1993, Minnesota Municipal Fund II, Arizona Municipal Fund and Florida Insured Municipal Fund issued 1,200, 500 and 400 preferred shares, respectively. On December 10, 1993, Minnesota Municipal Fund III issued 300 preferred shares and on September 23, 1993, Colorado Insured Municipal Fund issued 800 preferred shares. The preferred shares of each Fund have a liquidation preference of \$50,000 per share plus an amount equal to accumulated but unpaid dividends.

5. CAPITAL STOCK (CONTINUED)

Dividends for the outstanding preferred shares of each Fund are cumulative at a rate established at the initial public offering and are typically reset every 28 days based on the results of an auction. Dividend rates (adjusted for any capital gain distributions) ranged during the six months ended September 30, 2005 as follows:

Fund	Low	High
- - - - -	---	----
Arizona Municipal Fund	2.10%	to 2.95%
Colorado Insured Municipal Fund	1.00%	to 2.85%
Florida Insured Municipal Fund	2.10%	to 3.00%
Minnesota Municipal Fund	1.75%	to 2.95%
Minnesota Municipal Fund II	1.90%	to 3.05%
Minnesota Municipal Fund III	2.20%	to 3.00%

Citigroup Global Markets, Inc. (formerly Salomon Smith Barney, Inc.), and Merrill Lynch Pierce, Fenner & Smith Inc. (Colorado Insured Municipal Fund only), as the remarketing agents, receive an annual fee from each of the Funds of 0.25% of the average amount of preferred stock outstanding.

Under the 1940 Act, the Funds may not declare dividends or make other distributions on common shares or purchase any such shares if, at the time of the declaration, distribution or purchase, asset coverage with respect to the outstanding preferred stock is less than 200%. The preferred shares are redeemable at the option of the Funds, in whole or in part, on any dividend payment date at \$50,000 per share plus any accumulated but unpaid dividends whether or not declared. The preferred shares are also subject to mandatory redemption at \$50,000 per share plus any accumulated but unpaid dividends whether or not declared, if certain requirements relating to the composition of the assets and liabilities of each Fund are not satisfied. The holders of preferred shares have voting rights equal to the holders of common shares (one vote per share) and will vote together with holders of common shares as a single class. However, holders of preferred shares are also entitled to elect two of each Fund's Directors. In addition, the 1940 Act requires that along with approval by shareholders that might otherwise be required, the approval of the holders of a majority of any outstanding preferred shares, voting separately as a class would be required to (a) adopt any plan of reorganization that would adversely affect the preferred shares, and (b) take any action requiring a vote of security holders pursuant to Section 13(a) of the 1940 Act, including, among other things, changes in each of the Fund's subclassification as a closed-end investment company or (c) changes in their fundamental investment restrictions.

6. CREDIT AND MARKET RISKS

The Funds use leverage in the form of preferred shares. Leveraging may result in a higher degree of volatility because each Fund's net asset value could be more sensitive to fluctuations in short-term interest rates and changes in market value of portfolio securities attributable to the leverage.

The Funds concentrate their investments in securities issued by municipalities. The value of these investments may be adversely affected by new legislation within the states, regional or local economic conditions, and differing levels of supply and demand for municipal bonds. Many municipalities insure repayment for their obligations. Although bond insurance reduces the risk of loss due to default by an issuer, such bonds remain subject to the risk that market value may fluctuate for other reasons and there is no assurance that the insurance company will meet its obligations. These securities have been identified in the

Statements of Net Assets.

The Funds may invest in inverse floating rate securities ("inverse floaters"), a type of derivative tax-exempt obligation with floating or variable interest rates that move in the opposite direction of short-term interest rates, usually at an accelerated speed. Consequently, the market values of inverse floaters will generally be more volatile than other tax-exempt investments. Such securities are denoted on the Statements of Net Assets.

Each Fund may invest in advanced refunded bonds, escrow secured bonds or defeased bonds. Under current federal tax laws and regulations, state and local government borrowers are permitted to refinance outstanding bonds by issuing new bonds. The issuer refinances the outstanding debt to either reduce interest costs or to remove or alter restrictive covenants imposed by the bonds being refinanced. A refunding transaction where the municipal securities are being refunded within 90 days or less from the issuance of the refunding issue is known as a "current refunding". "Advance refunded bonds" are bonds in which the refunded bond issue remains outstanding for more than 90 days following the issuance of the refunding issue. In an advance refunding, the issuer will use the proceeds of a new bond issue to purchase high grade interest bearing debt securities which are then deposited in an irrevocable escrow account held by an escrow agent to secure all future payments of principal and interest and bond premium of the advance refunded bond. Bonds are "escrowed to maturity" when the proceeds of the refunding issue are deposited in an escrow account for investment sufficient to pay all of the principal and interest on the original interest payment and maturity dates. Bonds are considered "pre-refunded" when the refunding issue's proceeds are escrowed only until a permitted call date or dates on the refunded issue with the refunded issue being redeemed at the time, including any required premium. Bonds become "defeased" when the rights and interests of the bondholders and of their lien on the pledged revenues or other security under the terms of the bond contract are substituted with an alternative source of revenues (the escrow securities) sufficient to meet payments of principal and interest to maturity or to the first call dates. Escrowed secured bonds will often receive a rating of AAA from Moody's Investors Service, Inc., Standard & Poor's Ratings Group, and/or Fitch due to the strong credit quality of the escrow securities and the irrevocable nature of the escrow deposit agreement.

Each Fund may invest up to 15% of its total assets in illiquid securities, which may include securities with contractual restrictions on resale, securities exempt from registration under Rule 144A of the Securities Act of 1933, as amended, and other securities which may not be readily marketable. The relative illiquidity of these securities may impair each Fund from disposing of them in a timely manner and at a fair price when it is necessary or desirable to do so. At September 30, 2005, there were no Rule 144A securities and no securities have been determined to be illiquid under the Funds' Liquidity Procedures. While maintaining oversight, each Fund's Board of Directors/Trustees has delegated to DMC the day-to-day functions of determining whether individual securities are liquid for purposes of a Funds' limitation on investments in illiquid assets.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

7. CONTRACTUAL OBLIGATIONS

The Funds enter into contracts in the normal course of business that contain a variety of indemnifications. The Funds' maximum exposure under these arrangements is unknown. However, the Funds have not had prior claims or losses pursuant to these contracts. Management has reviewed each Fund's existing contracts and expects the risk of loss to be remote.

8. SUBSEQUENT EVENT.

On August 18, 2005, the Board of Directors of each of the Minnesota Municipal Income Fund, Minnesota Municipal Income Fund II and Minnesota Municipal Income Fund III approved an Agreement and Plan of Acquisition among Minnesota Municipal Income Fund and Minnesota Municipal Income Fund III (each, an "Acquired Fund," and collectively, the "Acquired Funds") and Minnesota Municipal Income Fund II (the "Acquiring Fund") and DMC providing for (i) the acquisition by the Acquiring Fund of substantially all of the assets of the Acquired Funds in exchange for common and/or preferred shares of the Acquiring Fund; (ii) the pro rata distribution of those Acquiring Fund common and/or preferred shares to shareholders of the Acquired Funds; and (iii) the subsequent dissolution of the Acquired Funds (the "Reorganization"). The Reorganization is designed to be a tax-free merger of investment companies. If approved by shareholders of both the Acquired and Acquiring Funds, it is expected that the Reorganization would close by the end of the first quarter of 2006.

BOARD CONSIDERATION OF DELAWARE INVESTMENTS CLOSED-END MUNICIPAL BOND FUNDS
INVESTMENT ADVISORY AGREEMENT

At a meeting held on May 18-19, 2005 (the "Annual Meeting"), the Board of Directors, including a majority of disinterested or independent Directors, and the Board of Trustees, including a majority of disinterested or independent Trustees for the Delaware Investments Florida Insured Municipal Income Fund, (a "Fund"); approved the renewal of the Investment Advisory Agreements for the Delaware Investments Arizona Municipal Income Fund, Inc.; Delaware Investments Colorado Insured Municipal Income Fund, Inc.; Delaware Investments Minnesota Municipal Income Fund, Inc.; Delaware Investments Minnesota Municipal Income Fund II, Inc.; and Delaware Investments Minnesota Municipal Income Fund III, Inc. (each a "Fund" and together with Delaware Investments Florida Insured Municipal Income Fund the "Funds"). In making its decision, the Board considered information furnished throughout the year at regular Board meetings, as well as information prepared specifically in connection with the Annual Meeting. Information furnished and discussed throughout the year included reports detailing Fund performance, investment strategies, expenses, compliance matters and other services provided by Delaware Management Company ("DMC"), the investment advisor. Information furnished specifically in connection with the Annual Meeting included materials provided by DMC and its affiliates ("Delaware Investments") concerning, among other things, the level of services provided to the Funds, the costs of such services to the Funds, economies of scale and the

financial condition and profitability of Delaware Investments. In addition, in connection with the Annual Meeting, the Board separately received and reviewed independent historical and comparative reports prepared by Lipper Inc. ("Lipper"), an independent statistical compilation organization. The Lipper reports compared each Fund's investment performance and expenses with those of other comparable mutual funds. The Board also requested and received certain supplemental

OTHER

information regarding management's policy with respect to advisory fee levels and its philosophy with respect to breakpoints; the structure of portfolio manager compensation; the investment manager's profitability organized by client type, including the Funds; and any constraints or limitations on the availability of securities in certain investment styles which might inhibit the advisor's ability to fully invest in accordance with the Funds' policies.

In considering such materials, the independent Directors/Trustees received assistance and advice from and met separately with independent counsel and representatives from Lipper. At the meeting with representatives from Lipper, Jude Driscoll, Chairman of the Delaware Investments Family of Funds, and Chairman and Chief Executive Officer of the investment advisor, was present to respond to questions raised by Lipper and the independent Directors/Trustees. While the Board considered the Investment Advisory Agreements for all of the funds in the Delaware Investments Family of Funds at the same Board meeting, information was provided and considered by the Board for each fund individually. In approving the continuance of the Investment Advisory Agreements for the Funds, the Board, including a majority of independent Directors/Trustees, determined that the existing advisory fee structure was fair and reasonable and that the continuance of the Investment Advisory Agreements was in the best interests of the Funds and their shareholders. While attention was given to all information furnished, the following discusses the primary factors relevant to the Board's deliberations and determination, including those relating to the selection of the investment advisor and the approval of the advisory fee.

NATURE, EXTENT AND QUALITY OF SERVICE. Consideration was given to the services provided by Delaware Investments to the Funds and their shareholders. In reviewing the nature, extent and quality of services, the Board emphasized reports furnished to it throughout the year at regular Board meetings covering matters such as the compliance of portfolio managers with the investment policies, strategies and restrictions for the Funds, the compliance of management personnel with the Code of Ethics adopted throughout the Delaware Investments Family of Funds complex, the adherence to fair value pricing procedures as established by the Board, and the accuracy of net asset value calculations. The Board noted that it was pleased with the current staffing of the Funds' investment advisor during the past year, the emphasis on research and the compensation system for advisory personnel. Favorable consideration was given to DMC's efforts to maintain, and in some instances increase, financial and human resources committed to fund matters. Other factors taken into account by the Board were Delaware Investments' preparedness for, and response to, legal and regulatory matters. The Board was satisfied with the nature, extent and quality of the overall services provided by Delaware Investments.

INVESTMENT PERFORMANCE. The Board considered the investment performance of DMC and the Funds. The Board was pleased by DMC's investment performance, noting Barron's ranking of the Delaware Investments Family of Funds in the top quartile of mutual fund families for 2002 -- 2004. The Board placed significant emphasis on the investment performance of the Funds in view of its importance to shareholders. While consideration was given to performance reports and discussions with portfolio managers at Board meetings throughout the year, particular attention in assessing performance was given to the Lipper reports furnished for the Annual Meeting. The Lipper reports prepared for each Fund showed the investment performance of its shares in comparison to a group of similar funds as selected by Lipper (the "Performance Universe"). A fund with the highest performance is ranked first, and a fund with the lowest is ranked last. The highest/best performing 25% of funds in the Performance Universe make up the first quartile; the next 25% -- the second quartile; the next 25% -- the third quartile; and the lowest/worst performing 25% of funds in the Performance Universe make up the fourth quartile. Comparative annualized performance for the Funds was shown for the past one, three, five and 10 year periods ended February 28, 2005. The Board noted its objective that each Fund's performance be at or above the median of its Performance Universe. The following paragraphs summarize the performance results for the Funds and the Board's view of such performance.

Delaware Investments Arizona Municipal Income Fund, Inc. -- The Performance Universe for this Fund consisted of the Fund and all leveraged closed-end other states municipal debt funds as selected by Lipper. The Lipper report comparison showed that the Fund's total return for the one, five and 10 year periods was in the second quartile of such Performance Universe. The report further showed that the Fund's total return for the three year period was in the third quartile. The Board noted that the Fund's performance results were mixed but on an overall basis tended toward median, which was acceptable.

Delaware Investments Colorado Insured Municipal Income Fund, Inc. -- The Performance Universe for this Fund consisted of the Fund and all leveraged closed-end other states municipal debt funds as selected by Lipper. The Lipper report comparison showed that the Fund's total return for the one year period was in the fourth quartile of such Performance Universe. The report further showed that the Fund's total return for the three and 10 year periods was in the second quartile and the Fund's total return for the five year period was in the first quartile. The Board noted that the Fund's performance results were mixed but on an overall basis tended toward median, which was acceptable.

Delaware Investments Florida Insured Municipal Income Fund -- The Performance Universe for this Fund consisted of the Fund and all leveraged closed-end Florida municipal debt funds as selected by Lipper. The Lipper report comparison showed that the Fund's total return for the one, three and five year periods was in the fourth quartile of such Performance Universe. The report further showed that the Fund's total return for the 10 year period was in the first quartile. The Board noted that the Fund's performance results were not in line with the Board's objective. The Board also noted that the Performance Universe is not comprised solely of insured funds. Many of the funds (even certain of the insured funds) in the Performance Universe can maintain exposure to BBB rated bonds, which have significantly outperformed the AAA rated bonds that the Fund invests in. Based upon the Fund's investment restrictions and the composition of the Performance Universes, the Board was satisfied with the Fund's performance results.

Delaware Investments Minnesota Municipal Income Fund, Inc. -- The Performance Universe for this Fund consisted of the Fund and all leveraged closed-end Minnesota municipal debt funds as selected by Lipper. The Lipper report comparison showed that the Fund's total return for the one period was in the second quartile of such Performance Universe. The report further showed that the Fund's total return for the three, five and 10 year periods was in the fourth quartile. The Board noted that the Fund's performance results were mixed. The Board also noted that DMC serves as advisor to three of the five funds in the Performance Universe. Accordingly, poor relative performance can be misleading. Given the size and composition of the Performance Universe, the Board was satisfied with the Fund's performance results.

Delaware Investments Minnesota Municipal Income Fund II, Inc. -- The Performance Universe for this Fund consisted of the Fund and all leveraged closed-end Minnesota municipal debt funds as selected by Lipper. The Lipper report comparison showed that the Fund's total return for the one,

OTHER
FUND INFORMATION (CONTINUED)

three, five and 10 year periods was in the first quartile of such Performance Universe. The Board was satisfied with such performance.

Delaware Investments Minnesota Municipal Income Fund III, Inc. -- The Performance Universe for this Fund consisted of the Fund and all leveraged closed-end Minnesota municipal debt funds as selected by Lipper. The Lipper report comparison showed that the Fund's total return for the one year period was in the third quartile of such Performance Universe. The report further showed that the Fund's total return for the three, five and 10 year periods was in the first quartile. The Board noted that the Fund's performance results were mixed. The Board also noted that DMC serves as advisor to three of the five funds in the Performance Universe. Accordingly, poor relative performance can be misleading. Given the size and composition of the Performance Universe, the Board was satisfied with the Fund's performance results.

COMPARATIVE EXPENSES. The Board considered expense comparison data for the Delaware Investments Family of Funds, Delaware Investments' institutional separate account business and other lines of business at Delaware Investments. The Board stated its belief that, given the differing level of service provided to Delaware Investments' various clients and other factors that related to the establishment of fee levels, variations in the levels of fees and expenses were

justified. The Board placed significant emphasis on the comparative analysis of the management fees and total expense ratios of each Fund compared with those of a group of similar leveraged closed-end funds as selected by Lipper (the "Expense Group") and among the other Delaware Investments funds. In reviewing comparative costs, each Fund's contractual management fee and the actual management fee incurred by the Fund were compared with the contractual management fees (assuming all funds in the Expense Group were similar in size to the Fund) and actual management fees (as reported by each fund) of other funds within the Expense Group, taking into effect any applicable breakpoints and fee waivers. Each Fund's total expenses were also compared with those of its Expense Group. The Board noted its objective to limit each Fund's total expense ratio to an acceptable range as compared to the median of the Expense Group. The following paragraphs summarize the expense results for the Funds and the Board's view of such expenses.

Delaware Investments Arizona Municipal Income Fund, Inc. -- The expense comparisons for the Fund showed that its management fee was in the quartile with the second lowest expenses of its Expense Group and its total expenses were in the quartile with the lowest expenses of its Expense Group. The Board was satisfied with the management fees and total expenses of the Fund in comparison to its Expense Group as shown in the Lipper report.

Delaware Investments Colorado Insured Municipal Income Fund, Inc. -- The expense comparisons for the Fund showed that its management fee and total expenses were in the quartile with the lowest expenses of its Expense Group. The Board was satisfied with the management fees and total expenses of the Fund in comparison to its Expense Group as shown in the Lipper report.

Delaware Investments Florida Insured Municipal Income Fund -- The expense comparisons for the Fund showed that its management fee was in the quartile with the second lowest expenses of its Expense Group and its total expenses were in the quartile with the second highest of its Expense Group. The Board gave favorable consideration to the Fund's management fee, but noted that the Fund's total expenses were not in line with the Board's objective. In evaluating the total expenses, the Board considered management's plans to implement an expense cap as of June 1, 2005. The Board was satisfied with management's efforts to improve the Fund's total expense ratio and bring it in line with the Board's objective.

Delaware Investments Minnesota Municipal Income Fund, Inc. -- The expense comparisons for the Fund showed that its management fee and total expenses were in the quartile with the second lowest expenses of its Expense Group. The Board was satisfied with the management fees and total expenses of the Fund in comparison to its Expense Group as shown in the Lipper report.

Delaware Investments Minnesota Municipal Income Fund II, Inc. -- The expense comparisons for the Fund showed that its management fee and total expenses were in the quartile with the lowest expenses of its Expense Group. The Board was satisfied with the management fees and total expenses of the Fund in comparison to its Expense Group as shown in the Lipper report.

Delaware Investments Minnesota Municipal Income Fund III, Inc. -- The expense comparisons for the Fund showed that its management fee and total expenses were in the quartile with the second lowest expenses of its Expense Group. The Board was satisfied with the management fees and total expenses of the Fund in comparison to its Expense Group as shown in the Lipper report.

MANAGEMENT PROFITABILITY. The Board considered the level of profits, if any, realized by Delaware Investments in connection with the operation of the Funds. In this respect, the Board reviewed the Investment Management Profitability Analysis that addressed the overall profitability of Delaware Investments' business in providing management and other services to each of the individual funds and the Delaware Investments Family of Funds as a whole. Specific attention was given to the methodology followed in allocating costs for the purpose of determining profitability. Management stated that the level of profits of Delaware Investments, to a certain extent, reflected operational cost savings and efficiencies initiated by Delaware Investments. The Board considered Delaware Investments' expenditures to improve services provided to fund shareholders and to meet additional regulatory and compliance requirements resulting from the Sarbanes-Oxley Act and recent SEC initiatives. The Board also considered the extent to which Delaware Investments might derive ancillary benefits from fund operations, including the potential for procuring additional business as a result of the prestige and visibility associated with its role as service provider to the Delaware Investments Family of Funds, the benefits from allocation of fund brokerage to improve trading efficiencies and the use of "soft" commission dollars to pay for proprietary and non-proprietary research. At the Board's request, management also provided information relating to Delaware Investments' profitability by client type. The information provided set

forth the revenue, expenses and pre-tax income/loss attributable to the Delaware Investments Family of Funds, Delaware Investments' separate account business and other lines of business at Delaware Investments. Emphasis was given to the level and type of service provided to the various clients. The Board was satisfied with the level of profits realized by Delaware Investments from the relationships with the Funds and the Delaware Investments Family of Funds.

ECONOMIES OF SCALE. As closed-end funds, the Funds do not issue shares on a continuous basis. Fund assets increase only to the extent that the value of the underlying securities in the Fund increase. Accordingly, the Board determined that the Funds were not likely to experience significant economies of scale due to asset growth and, therefore, a fee schedule with breakpoints to pass the benefit of such economies of scale on to shareholders was not likely to provide the intended effect.

ABOUT
THE ORGANIZATION

This semiannual report is for the information of Delaware Investments Closed-End Municipal Bond Funds shareholders. The return and principal value of an investment in each Fund will fluctuate so that shares, when resold, may be worth more or less than their original cost. Notice is hereby given in accordance with Section 23(c) of the Investment Company Act of 1940 that each Fund may, from time-to-time, purchase shares of its common stock on the open market at market prices.
