Investment income dividends and capital gains distributions are taken in additional shares. This chart covers the years 1993-2007. Fees for the reinvestment of interim dividends are assumed as 2% of the amount reinvested (maximum of \$2.50) and commissions of \$0.05 per share. There is no charge for reinvestment of year-end distributions. No adjustment has been made for any income taxes payable by stockholders on income dividends or on capital gains distributions, or the sale of any shares. These results should not be considered representative of the dividend income or capital gain or loss which may be realized in the future.

**The Year in Review**

We are pleased to report that the Fund generated a 6.5% total return on net assets in 2007 despite a challenging investment climate. This return outperformed the 5.5% return of the S&P 500 Index and the 5.8% return of the Lipper Large Cap Core Mutual Fund Average for the year.

Our holdings in energy, consumer staples, telecom services and technology were the principal contributors to the Fund's return in 2007. Overweight positions (a higher percentage of assets than the S&P 500 Index) in energy and consumer staples and underweightings in financials and consumer discretionary stocks augmented our returns relative to the benchmark. The health care, industrial, and materials holdings in the portfolio did not perform as well as their corresponding sectors of the index.

The Fund's total return on market price was 9.4%. A portion of this return resulted from trading late in the day on December 31. Without the effect of these trades, the total market return would have been approximately 1.7% lower. It should be noted that we were not in the market buying back any of our shares during the final six business days of the year.

At the beginning of the year, we expected that returns would reflect a generally improved earnings outlook, but the credit crisis in the U.S. financial system that surfaced in the summer dramatically impacted those expectations. The Federal Reserve cut short-term interest rates by 1/2% in September and by the end of the year cut them another 1/2%. Massive amounts of liquidity have been injected into U.S. and overseas money markets and billions of dollars worth of collateralized debt obligation investments have been written down by banks, hedge funds, and other investors. So far, most of the problems have related to low quality "subprime" home mortgages, but banks have indicated that credit quality is also deteriorating in home equity, auto, and credit card loans.

The trauma in credit markets spilled over into the equity markets in the fourth quarter of the year, as the huge write-offs at homebuilders and financial institutions threw assumptions about the strength of the rest of the economy into question. Steadily rising gasoline and food prices finally began to take their toll on consumers, and what had been relatively tame inflation figures started to worsen. The holiday retail selling season was the worst since 2003 as consumers tightened their belts and spent only modestly and principally at the sale counters. The stock market reflected investor disappointment with these conditions and other areas of weakness with the S&P 500 Index returning - -3.3% in the final quarter. We were pleased that the Fund's return for the year as a whole remained a full percentage point above that of the index.

#### Investment Results

At the end of 2007, our net assets were \$1,378,479,527 or \$15.72 per share on 87,668,847 shares outstanding. This compares with \$1,377,418,310 or \$15.86 per share on 86,838,223 shares outstanding a year earlier.

Net investment income for 2007 was \$25,884,799 compared to \$19,691,488 for 2006. These earnings are equal to \$0.30 and \$0.23 per share, respectively, on the average number of shares outstanding throughout each year. Our 0.44% expense ratio (expenses to average net assets) in 2007 was once again very low compared to the fund industry in general.

Net realized gains amounted to \$60,426,376 during the year, while the unrealized appreciation on investments decreased from \$418,756,256 at December 31, 2006 to \$410,454,970 at year end.

#### Dividends and Distributions

The total dividends and distributions paid in 2007 were \$1.03 per share compared to \$0.90 in 2006. The table on page 19 shows the history of our dividends and distributions over the past fifteen years, including the annual rate of distribution as a percentage of the average daily market price of the Company's Common Stock. In 2007, the annual rate of distribution was 7.15% compared to 6.80% in 2006. As announced on November 8, 2007, a year-end distribution consisting of investment income of \$0.18 per share and capital gains of \$0.70 per share was made on December 27, 2007, both realized and taxable in 2007. On January 10, 2008, an additional distribution of \$0.05 per

share was declared to shareholders of record on February 14, 2008, payable March 1, 2008, representing the balance of undistributed net investment income and capital gains earned during 2007 and an initial distribution from 2008 net investment income, all taxable to shareholders in 2008.

**Outlook for 2008**

The long-anticipated slowing in U.S. economic growth appears to have begun as a result of the turmoil in the housing and credit markets, combined with higher energy and food costs. Real gross domestic product (GDP) growth swung from 2.1% in the final quarter of 2006 to 0.6% in the first quarter of 2007 to 4.9% in the third quarter and is likely to show 0.6% growth or less for the fourth quarter. A recession, defined as two consecutive quarters of negative growth in GDP, is certainly a possibility in 2008, though if one occurred, we would not expect it to be long or deep. The Federal Reserve reduced interest rates and is expected to continue to do so, while keeping a close eye on inflation. The level of so-called "core" inflation, excluding food and energy, has been within the range with which the Fed is comfortable. At some point, however, overall inflation and its impact on consumers must be considered.

One of the other effects of lower interest rates is generally a weaker dollar relative to other currencies. The dollar has been declining for some time now and is expected to continue while interest rates are being brought down. This should result in improved exports as U.S. goods become more competitive overseas. While the economies of our trading partners are likely to weaken somewhat in response to a slower economy here, they are still expected to experience better growth than the U.S. The combination of lower interest rates, a weaker dollar, and stronger economies overseas should result in a fairly rapid recovery from the expected period of little or no growth. The recovery could be derailed, however, by the development of a full-fledged banking crisis out of the current "subprime" and collateralized debt problem.

If the economy recovers late in 2008, the stock market should follow suit. Analysts are now beginning to lower earnings estimates for many companies and their stock prices are already reacting strongly. Investor concern about financial conditions is resulting in knee-jerk reactions to bad news. While this can present some interesting opportunities, we believe there will be equally attractive ones when there is less question as to the severity of the decline. Our current portfolio is broadly diversified across industries with an emphasis on companies with large exposures to economies worldwide. We have also added several foreign companies to the portfolio to take further advantage of economic strength overseas. With declining domestic growth in the near term, the Fund is invested primarily in large, financially-strong companies with leading market shares in their industries. As the recovery takes shape, we expect to add companies with smaller capitalizations which are more highly leveraged to economic growth, while maintaining the low risk profile of the portfolio as a whole.

#### Share Repurchase Program

On December 13, 2007, the Board of Directors authorized the repurchase by management of up to 5% of the outstanding shares of the Company over the ensuing year. The repurchase program is subject to the same restriction as in the past, namely that shares can be repurchased when the discount of the market price of the shares from the net asset value is 10% or greater.

From the beginning of 2008 through January 25, 2008, a total of 129,376 shares have been repurchased at a total cost of \$1,633,325 and a weighted average discount from net asset value of 13.2%.

NOTES TO FINANCIAL STATEMENTS

---

**1. Significant Accounting Policies**

The Adams Express Company (the Company) is registered under the Investment Company Act of 1940 as a diversified investment company. The Company is an internally-managed fund whose investment objectives are preservation of capital, the attainment of reasonable income from investments, and an opportunity for capital appreciation.

**Security Valuation** -- Investments in securities traded on a national security exchange are valued at the last reported sale price on the day of valuation. Over-the-counter and listed securities for which a sale price is not available are valued at the last quoted bid price. Short-term investments (excluding purchased options) are valued at amortized cost. Purchased and written options are valued at the last quoted asked price.

**Affiliated Companies** -- Investments in companies 5% or more of whose outstanding voting securities are held by the Company are defined as "Affiliated Companies" in Section 2(a)(3) of the Investment Company Act of 1940.

**Security Transactions and Investment Income** -- Investment transactions are accounted for on the trade date. Gain or loss on sales of securities and options is determined on the basis of identified cost. Dividend income and distributions to shareholders are recognized on the ex-dividend date, and interest income is recognized on the accrual basis.

**2. Federal Income Taxes**

The Company's policy is to distribute all of its taxable income to its shareholders in compliance with the requirements of the Internal Revenue Code applicable to regulated investment companies. Therefore, no federal income tax provision is required. For federal income tax purposes, the identified cost of securities at December 31, 2007 was \$1,003,073,225, and net unrealized appreciation aggregated \$410,953,748, of which the related gross unrealized appreciation and depreciation were \$495,432,734 and \$84,478,986, respectively. As of December 31, 2007, the tax basis of distributable earnings was \$1,962,008 of undistributed ordinary income and \$436,837 of undistributed long-term capital gain.

Distributions paid by the Company during the year ended December 31, 2007 were classified as ordinary income of \$34,249,231, and long-term capital gain of \$53,767,079. In comparison, distributions paid by the Company during the year ended December 31, 2006 were classified as ordinary income of \$22,964,152, and long-term capital gain of \$53,361,347. The distributions are determined in accordance with income tax regulations which may differ from generally accepted accounting principles. Accordingly, periodic reclassifications are made within the Company's capital accounts to reflect income and gains available for distribution under income tax regulations. Any income tax-related interest or penalties would be classified as income tax expense.

Effective June 29, 2007, the Company adopted Financial Accounting Standards Board (FASB) Interpretation No. 48 (FIN 48), Accounting for Uncertainty in Income Taxes, a clarification of FASB Statement No. 109, Accounting for Income Taxes. FIN 48 establishes financial reporting rules regarding recognition and measurement of tax positions taken or expected to be taken on a tax return. The adoption of FIN 48 had no impact on the Company's net assets or results of operations.

### 3. Investment Transactions

The Company's investment decisions are made by a committee of management, and recommendations to that committee are made by the research staff.

Purchases and sales of portfolio securities, other than options and short-term investments, during the year ended December 31, 2007 were \$141,227,739 and \$222,574,654, respectively. Options may be written (sold) or purchased by the Company. The Company, as writer of an option, bears the risks of possible illiquidity of the option markets and from movements in security values. The risk associated with purchasing an option is limited to the premium originally paid. A schedule of outstanding option contracts as of December 31, 2007 can be found on page 17.

Transactions in written covered call and collateralized put options during the year ended December 31, 2007 were as follows:

4. Capital Stock

The Company has 10,000,000 authorized and unissued preferred shares, \$0.001 par value.

On December 27, 2006, the Company issued 2,301,959 shares of its Common Stock at a price of \$13.75 per share (the average market price on December 12, 2006) to stockholders of record November 21, 2006 who elected to take stock in payment of the distribution from 2006 capital gain and investment income. In addition, 722 shares were issued at a weighted average price of \$13.43 per share as dividend equivalents to holders of deferred stock units and restricted stock units under the 2005 Equity Incentive Compensation Plan.

On December 27, 2007, the Company issued 2,381,872 shares of its Common Stock at a price of \$13.945 per share (the average market price on December 10, 2007) to stockholders of record November 21, 2007 who elected to take stock in payment of the distribution from 2007 capital gain and investment income. In addition, 597 shares were issued at a weighted average price of \$14.00 per share as dividend equivalents to holders of deferred stock units and restricted stock units under the 2005 Equity Incentive Compensation Plan.

The Company may purchase shares of its Common Stock from time to time at such prices and amounts as the Board of Directors may deem advisable. Transactions in Common Stock for 2007 and 2006 were as follows:

## 5. Retirement Plans

The Company's non-contributory qualified defined benefit pension plan ("qualified plan") covers all employees with at least one year of service. In addition, the Company has a non-contributory nonqualified defined benefit plan which provides eligible employees with retirement benefits to supplement the qualified plan. Benefits are based on length of service and compensation during the last five years of employment.

The funded status of the plans is recognized as an asset (overfunded plan) or a liability (underfunded plan) in the Statement of Assets and Liabilities. Changes in the prior service costs and accumulated actuarial gains and losses are recognized as accumulated other comprehensive income, a component of net assets, in the year in which the changes occur.

The Company uses a December 31 measurement date for its plans.

Items not yet recognized as a component of net periodic pension cost:

The accumulated benefit obligation for all defined benefit pension plans was \$9,086,788 and \$8,137,314 at December 31, 2007 and 2006, respectively.

In 2008, the Company estimates that \$95,860 of prior service cost and \$185,439 of net losses, for a total of \$281,299, will be amortized from accumulated other comprehensive income into net periodic pension cost.

Assumptions used to determine benefit obligations are:

The assumptions used to determine net periodic pension cost are:

The assumption for the expected long-term return on plan assets is based on the actual long-term historical returns realized by the plan assets, weighted according to the current asset mix.

The asset allocations at December 31, 2007 and 2006, by asset category, are as follows:

Equity Mutual Funds include Common Stock of the Company in the amount of \$778,577 (7% of total plan assets) and \$718,924 (6% of total plan assets) at December 31, 2007 and 2006, respectively.

The primary objective of the Company's pension plan is to provide capital appreciation, current income, and preservation of capital through a diversified portfolio of stocks and fixed income securities.

The Company's policy is to contribute annually to the plans those amounts that can be deducted for federal income tax purposes, plus additional amounts as the Company deems appropriate in order to provide assets sufficient to meet benefits to be paid to plan participants. The Company anticipates making no contribution to the plans in 2008.

The following benefit payments, which reflect expected future service, are expected to be paid:

The Company also sponsors a defined contribution plan that covers substantially all employees. The Company expensed contributions to this plan of \$187,345 and \$182,985 for the years ended December 31, 2007 and December 31, 2006, respectively. The Company does not provide postretirement medical benefits.

#### 6. Equity-Based Compensation

Although the Stock Option Plan of 1985 ("1985 Plan") has been discontinued and no further grants will be made under this plan, unexercised grants of stock options and stock appreciation rights granted in 2004 and prior years remain outstanding. The exercise price of the unexercised options and related stock appreciation rights is the fair market value on date of grant, reduced by the per share amount of capital gains paid by the Company during subsequent years. All options and related stock appreciation rights terminate 10 years from date of grant, if not exercised.

A summary of option activity under the 1985 Plan as of December 31, 2007, and changes during the period then ended, is presented below:

The options outstanding as of December 31, 2007 are set forth below:

Compensation cost resulting from stock options and stock appreciation rights granted under the 1985 Plan is based on the intrinsic value of the award, recognized over the award's vesting period, and remeasured at each reporting date through the date of settlement. The total compensation cost recognized for the year ended December 31, 2007 was \$129,680.

The 2005 Equity Incentive Compensation Plan ("2005 Plan"), adopted at the 2005 Annual Meeting, permits the grant of stock options, restricted stock awards and other stock incentives to key employees and all non-employee directors. The 2005 Plan provides for the issuance of up to 3,413,131 shares of the Company's Common Stock, including both performance and nonperformance-based restricted stock. Performance-based restricted stock awards vest at the end of a specified three year period, with the ultimate number of shares earned contingent on

achieving certain performance targets. If performance targets are not achieved, all or a portion of the performance-based restricted shares are forfeited and become available for future grants. Nonperformance-based restricted stock awards vest ratably over a three year period and nonperformance-based restricted stock units (granted to non-employee directors) vest over a one year period. It is the current intention that employee grants will be performance-based. The 2005 Plan provides for accelerated vesting in the event of death or retirement. Non-employee directors also may elect to defer a portion of their cash compensation, with such deferred amount to be paid by delivery of deferred stock units. Outstanding awards are granted at fair market value on grant date. The number of shares of Common Stock which remains available for future grants under the 2005 Plan at December 31, 2007 is 3,298,845 shares.

A summary of the status of the Company's awards granted under the 2005 Plan as of December 31, 2007, and changes during the period then ended, is presented below:

Compensation costs resulting from awards granted under the 2005 Plan are based on the fair value of the award on grant date (determined by the average of the high and low price on grant date) and recognized on a straight-line basis over the requisite service period. For those awards with performance conditions, compensation costs are based on the most probable outcome and, if such goals are not met, compensation cost is not recognized and any previously recognized compensation cost is reversed. The total compensation costs for restricted stock granted to employees for the year ended December 31, 2007 were \$346,937. The total compensation costs for restricted stock units granted to non-employee directors for the year ended December 31, 2007 were \$86,528. As of December 31, 2007, there were total unrecognized compensation costs of \$486,346, a component of additional capital surplus, related to nonvested equity-based compensation arrangements granted under the 2005 Plan. Those costs are expected to be recognized over a weighted average period of 1.48 years. The total fair value of shares vested during the years ended December 31, 2007 and 2006 was \$187,396 and \$168,230, respectively.

#### 7. Officer and Director Compensation

The aggregate remuneration paid during the year ended December 31, 2007 to officers and directors amounted to \$2,959,345, of which \$278,541 was paid to directors who were not officers. These amounts represent the taxable income to the Company's officers and directors and therefore differ from the amounts reported in the accompanying Statement of Operations that are recorded and expensed in accordance with generally accepted accounting principles.

#### 8. Portfolio Securities Loaned

The Company makes loans of securities to brokers, secured by cash, U.S. Government securities, or bank letters of credit. The Company accounts for securities lending transactions as secured financing and receives compensation in the form of fees or retains a portion of interest on the investment of any cash received as collateral. The Company also continues to receive interest or dividends on the securities loaned. The loans are secured at all times by collateral of at least 102% of the fair value of the securities loaned plus accrued interest. At December 31, 2007, the Company had securities on loan of \$36,873,580, and held collateral of \$37,702,913, consisting of an investment trust fund which may invest in money market instruments, commercial paper, repurchase agreements, U.S. Treasury Bills, and U.S. agency obligations.

#### 9. New Accounting Pronouncements

In September 2006, the FASB released Statement of Financial Accounting Standard No. 157, Fair Value Measurement ("FAS 157"), which provides enhanced guidance for using fair value to measure assets and liabilities. The standard requires companies to provide expanded information about the assets and liabilities measured at fair value and the potential effect of these fair valuations on an entity's financial performance. The standard does not expand the use of fair value in any new circumstances, but provides clarification on acceptable fair valuation methods and applications. Adoption of FAS 157 is required for fiscal years beginning after November 15, 2007. Application of the standard is not expected to materially impact the Company's financial statements.

\* In April 2007 the Company received \$5,100,000 in a special cash dividend from Dean Foods Co., of which \$2,295,000, or \$0.03 per share, is considered a taxable dividend.

\*\* In 2004 the Company received \$2,400,000, or \$0.03 per share, in an extraordinary dividend from Microsoft Corp.

December 31, 2007

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

---

To the Board of Directors and Stockholders of The Adams Express Company:

In our opinion, the accompanying statement of assets and liabilities, including the schedule of investments, and the related statements of operations and of changes in net assets and the financial highlights present fairly, in all material respects, the financial position of The Adams Express Company (the "Company") at December 31, 2007, the results of its operations for the year then ended, the changes in its net assets for each of the two years in the period then ended and the financial highlights for each of the five years in the period then ended, in conformity with accounting principles generally accepted in the United States of America. These financial statements and

financial highlights (hereafter referred to as "financial statements") are the responsibility of the Company's management; our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these financial statements in accordance with the auditing standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits, which included confirmation of securities at December 31, 2007 by correspondence with the custodian and brokers, provide a reasonable basis for our opinion.

#### **Proxy Voting Policies and Record**

A description of the policies and procedures that the Company uses to determine how to vote proxies relating to portfolio securities owned by the Company and information as to how the Company voted proxies relating to portfolio securities during the 12 month period ended June 30, 2007 are available (i) without charge, upon request, by calling the Company's toll free number at (800) 638-2479; (ii) on the Company's website by clicking on "Corporate Information" heading on the website; and (iii) on the Securities and Exchange Commission's website at [www.sec.gov](http://www.sec.gov).

#### **Forward-Looking Statements**

This report contains "forward-looking statements" within the meaning of the Securities Act of 1933 and the Securities Exchange Act of 1934. By their nature, all forward-looking statements involve risks and uncertainties, and actual results could differ materially from those contemplated by the forward-looking statements. Several factors that could materially affect the Company's actual results are the performance of the portfolio of stocks held by the Company, the conditions in the U.S. and international financial markets, the price at which shares of the Company will trade in the public markets, and other factors discussed in the Company's periodic filings with the Securities and Exchange Commission.

#### **Privacy Policy**

In order to conduct its business, the Company, through its transfer agent, currently American Stock Transfer & Trust Company, collects and maintains certain nonpublic personal information about our stockholders of record with respect to their transactions in shares of our securities. This information includes the stockholder's address, tax identification or Social Security number, share balances, and dividend elections. We do not collect or maintain personal information about stockholders whose shares of our securities are held in "street name" by a financial institution such as a bank or broker.

We do not disclose any nonpublic personal information about you, our other stockholders or our former stockholders to third parties unless necessary to process a transaction, service an account or as otherwise permitted by law.

To protect your personal information internally, we restrict access to nonpublic personal information about our stockholders to those employees who need to know that information to provide services to our stockholders. We also maintain certain other safeguards to protect your nonpublic personal information.

WE ARE OFTEN ASKED --

How do I invest in Adams Express?

Adams Express Common Stock is listed on the New York Stock Exchange. The stock's ticker symbol is "ADX" and may be bought and sold through registered investment security dealers. Your broker will be able to assist you in this regard. In addition, stock may be purchased through our transfer agent, American Stock Transfer & Trust Company's INVESTORS CHOICE Plan (see page 22).

Where do I get information on the stock's price, trading and/or net asset value?

The daily net asset value (NAV) per share and closing market price may be obtained from our website at [www.adamsexpress.com](http://www.adamsexpress.com). The daily NAV is also available on the NASDAQ Mutual Fund Quotation System under the symbol XADEX. The week-ending NAV is published on Saturdays in various newspapers.

Adams Express daily trading is shown in the stock tables of many daily newspapers, often with the abbreviated form "AdaEx." Local newspapers determine, usually by volume of traded shares, which securities to list. If your paper does not carry our listing, please telephone the Company at (800) 638-2479 or visit our website.

How do I replace a lost certificate(s) or how do I correct a spelling error on my certificate?

Your Adams Express stock certificates are valuable documents and should be kept in a safe place. For tax purposes, keep a record of each certificate, including the cost or market value of the shares it covers at the time acquired. If a certificate is lost, destroyed or stolen, notify the transfer agent immediately so a "stop transfer" order can be placed on the records to prevent an unauthorized transfer of your certificate. The necessary forms and requirements to permit the issuance of a replacement certificate will then be sent to you. A certificate can be replaced only after the receipt of an affidavit regarding the loss accompanied by an open surety bond, for which a small premium is paid by the stockholder.

In the event a certificate is issued with the holder's name incorrectly spelled, a correction can only be made if the certificate is returned to the transfer agent with instructions for correcting the error. Transferring shares to another name also requires that the certificate be forwarded to the transfer agent with the appropriate assignment forms completed and the signature of the registered owner Medallion guaranteed by a bank or member firm of The New York Stock Exchange, Inc.

Is direct deposit of my dividend checks available?

Yes, our transfer agent offers direct deposit of your interim dividend and year-end distribution checks. You can request direct deposit with American Stock Transfer either on-line or by calling them at the phone number provided on page 22.

Who do I notify of a change of address?

The transfer agent.

We go to Florida (Arizona) every winter. How do we get our mail from Adams Express?

The transfer agent can program a seasonal address into its system; simply send the temporary address and the dates you plan to be there to the transfer agent.

I want to give shares to my children, grandchildren, etc. as a gift. How do I go about it?

Giving shares of Adams Express is simple and is handled through our transfer agent. The stock transfer rules are clear and precise for most forms of transfer. They will vary slightly depending on each transfer, so write to the transfer agent stating the exact intent of your gift plans and the transfer agent will send you the instructions and forms necessary to effect your transfer.

How do I transfer shares held at American Stock Transfer (AST)?

There are many circumstances that require the transfer of shares to new registrations, e.g., marriage, death, a child reaching the age of maturity, or giving shares as a gift. Each situation requires different forms of documentation to support the transfer. You may obtain transfer instructions and download the necessary forms from our transfer agent's website: [www.amstock.com](http://www.amstock.com). Click on Shareholder Services, then General Shareholder Information and Transfer Instructions.

DIVIDEND PAYMENT SCHEDULE

The Company presently pays dividends four times a year, as follows: (a) three interim distributions on or about March 1, June 1, and September 1, and (b) a "year-end" distribution, payable in late December, consisting of the estimated balance of the net investment income for the year and the net realized capital gain earned through October 31. Stockholders may elect to receive the year-end distribution in stock or cash. In connection with this distribution, all stockholders of record are sent a dividend announcement notice and an election card in mid-November.

Stockholders holding shares in "street" or brokerage accounts may make their election by notifying their brokerage house representative.

#### INVESTORS CHOICE

Item 2. Code of Ethics.

On June 12, 2003, the Board of Directors adopted a code of ethics that applies to Registrant's principal executive officer and principal financial officer. The code of ethics is available on Registrant's website at: [www.adamsexpress.com](http://www.adamsexpress.com). Since the code of ethics was adopted there have been no amendments to it nor have any waivers from any of its provisions been granted.

Item 3. Audit Committee Financial Expert.

The board of directors has determined that at least one of the members of Registrant's audit committee meets the definition of audit committee financial expert as that term is defined by the Securities and Exchange Commission. The director on the Registrant's audit committee whom the board of directors has determined meets such definition is Kathleen T. McGahran, who is independent pursuant to paragraph (a) (2) of this Item.

Item 4. Principal Accountant Fees and Services.

(a) Audit Fees. The aggregate fees for professional services rendered by its independent auditors, PricewaterhouseCoopers LLP, for the audits of the Company's annual and semi-annual financial statements for 2007 and 2006 were \$76,630 and \$77,405 respectively.

(b) Audit Related Fees. There were no audit-related fees in 2007 and 2006.

(c) Tax Fees. The aggregate fees to Registrant for professional services rendered by PricewaterhouseCoopers LLP for the review of Registrant's excise tax calculations and preparations of federal, state and excise tax returns for 2007 and 2006 were \$12,070 and \$11,278, respectively.

(d) All Other Fees. The aggregate fees to Registrant by PricewaterhouseCoopers LLP other than for the services referenced above for 2007 and 2006 were \$5,766 and \$10,044, respectively, which related to the review of the Company's procedures for calculating the amounts to be paid or granted to the Company's officers in accordance with the Company's cash incentive plan and the 2005 Equity Incentive Compensation Plan, review of the Company's calculations related to those plans, and preparation of a report to the Company's Compensation Committee.

(e) (1) Audit Committee Pre-Approval Policy. As of 2007, all services to be performed for Registrant by PricewaterhouseCoopers LLP must be pre-approved by the audit committee. All services performed in 2007 were pre-approved by the committee.

(2) Not applicable.

(f) Not applicable.

(g) The aggregate fees by PricewaterhouseCoopers LLP for non-audit professional services rendered to Registrant for 2007 and 2006 were \$17,836 and \$21,322, respectively.

(h) The Registrant's audit committee has considered the provision by PricewaterhouseCoopers LLP of the non-audit services described above and found that they are compatible with maintaining PricewaterhouseCoopers LLP's independence.

Item 5. Audit Committee of Listed Registrants.

(a) The Registrant has a standing audit committee established in accordance with Section 3(a)(58)(A) of the Securities Exchange Act of 1934. The members of the audit committee are: Kathleen T. McGahran, Chair, Daniel E. Emerson, Frederic A. Escherich, and Craig R. Smith.

(B) Not applicable.

Item 6. Schedule of Investments - This schedule is included as part of the report to shareholders filed under Item 1 of this form.

Item 7. Disclosure of Proxy Voting Policies and Procedures for Closed-End Management Investment Companies.

#### PROXY VOTING GUIDELINES

The Adams Express Company (Adams) follows long-standing general guidelines for the voting of portfolio company proxies and takes very seriously its responsibility to vote all such proxies. The portfolio company proxies are evaluated by our research staff and voted by our portfolio management team, and we annually provide the Board of Directors with a report on how proxies were voted during the previous year. We do not use an outside service to assist us in voting our proxies.

As an internally-managed investment company, Adams uses its own staff of research analysts and portfolio managers. In making the decision to invest in a company for the portfolio, among the factors the research team analyses is the integrity and competency of the company's management. We must be satisfied that the companies we invest in are run by managers with integrity. Therefore, having evaluated this aspect of our portfolio companies' managements, we give significant weight to the recommendations of the company's management in voting on proxy issues.

We vote proxies on a case-by-case basis according to what we deem to be the best long-term interests of our shareholders. The key over-riding principle in any proxy vote is that stockholders be treated fairly and equitably by the portfolio company's management. In general, on the election of directors and on routine issues that we do not believe present the possibility of an adverse impact upon our investment, after reviewing whether applicable corporate governance requirements as to board and committee composition have been met, we will vote in accordance with the recommendations of the company's management. When we believe that the management's recommendation is not in the best interests of our stockholders, we will vote against that recommendation.

Our general guidelines for when we will vote contrary to the recommendation of the portfolio company management's recommendation are:

#### Stock Options

Our general guideline is to vote against stock option plans that we believe are unduly dilutive of our stock holdings in the company. We use a general guideline that we will vote against any stock option plan that results in dilution in shares outstanding exceeding 4%. Most stock option plans are established to motivate and retain key employees and to reward them for their achievement. An analysis of a stock option plan can not be made in a vacuum but must be made in the context of the company's overall compensation scheme. In voting on stock option plans, we give consideration to whether the stock option plan is broad-based in the number of employees who are eligible to receive grants under the plan. We generally vote against plans that permit re-pricing of grants or the issuance of options with exercise prices below the grant date value of the company's stock.

#### Corporate Control/Governance Issues

Unless we conclude that the proposal is favorable to our interests as a long-term shareholder in the company, we have a long-standing policy of voting against proposals to create a staggered board of directors. In conformance with that policy, we will generally vote in favor of shareholder proposals to eliminate the staggered election of directors.

Unless we conclude that the proposal is favorable to our interests as a long-term shareholder in the company, our general policy is to vote against amendments to a company's charter that can be characterized as blatant anti-takeover provisions.

With respect to so-called golden parachutes and other severance packages, it is our general policy to vote against proposals relating to future employment contracts that provide that compensation will be paid to any director, officer or employee that is contingent upon a merger or acquisition of the company.

We generally vote for proposals to require that the majority of a board of directors consist of independent directors and vote against proposals to establish a retirement plan for non-employee directors.

We have found that most stockholder proposals relating to social issues focus on very narrow issues that either fall within the authority of the company's management, under the oversight of its board of directors, to manage the day-to-day operations of the company or concern matters that are more appropriate for global solutions rather than company-specific ones. We consider these proposals on a case-by-case basis but usually are persuaded management's position is reasonable and vote in accordance with management's recommendation on these types of proposals.

Item 8. Portfolio Managers of Closed-End Management Investment Companies.

(a) (1) Douglas G. Ober, Chairman and Chief Executive Officer, and Joseph M. Truta, President, comprise the 2 person portfolio management team for the Registrant. Mr. Ober and Mr. Truta have served as portfolio managers for the Registrant since 1991. This information is as of February 19, 2008. Mr. Ober is the lead member of the portfolio management team. Mr. Ober and Mr. Truta receive investment recommendations from a team of research analysts and make decisions jointly about any equity transactions in the portfolio. Concurrence of both portfolio managers is required for an investment recommendation to be approved.

(2) Mr. Ober and Mr. Truta also comprised in 2007 the portfolio management team for Registrant's non-controlled affiliate, Petroleum & Resources Corporation (Petroleum), a registered investment company with total net assets of \$978,919,829 as of December 31, 2007. Robert E. Sullivan was added to Petroleum's portfolio management team effective January 1, 2008. Mr. Ober is Chairman, Chief Executive Officer and President of Petroleum, Mr. Truta is Executive Vice President, and, effective January 1, 2008, Mr. Sullivan is Executive Vice President. This information is as of February 19, 2008. The Petroleum fund is a non-diversified fund focusing on the energy and natural resources sectors and Adams is a diversified fund with a different focus, and there are few material conflicts of interest that may arise in connection with the portfolio managers' management of both funds. The funds do not buy or sell securities or other portfolio holdings to or from the other, and procedures and policies are in place covering the sharing of expenses and the allocation of investment opportunities, including bunched orders and investments in initial public offerings, between the funds.

(3) The portfolio managers are compensated through a three-component plan, consisting of salary, annual cash incentive compensation, and equity incentive compensation. The value of each component in any year is determined by the Compensation Committee, comprised solely of independent director members of the Board of Directors. Salaries are determined by using

appropriate industry surveys and information about the local market as well as general inflation statistics. Cash incentive compensation is based on a combination of absolute and relative fund performance over one and three year periods as well as individual success at meeting goals and objectives set by the Board of Directors at the beginning of each year. Target incentives are set based on 80% of salary for the Chief Executive Officer and 60% of salary for the President. Two-thirds of each individual's annual cash incentive is based on fund performance and one third on individual success. The portion based on performance is determined using a scale in which the target can be earned by absolute fund pre-tax performance of 10%. The scale ranges from zero to 125% of target. The result is then modified by an average of the one and three year performance relative to the S&P 500, whereby each one percent outperformance or underperformance by the fund adds or deducts 5% from the percentage of target earned based on the scale. The maximum percentage of target which may be earned is 200% and the minimum is zero. Equity incentive compensation, based on a plan approved by shareholders in 2005, can take several forms. Following approval of the plan, grants of restricted stock were made to the portfolio managers in April 2005, with vesting in equal proportions over a three year period. The size of the grants was determined by the Compensation Committee with the assistance of an outside compensation consultant. Grants of restricted stock were also made on January 11, 2007, and January 12, 2006, each of which will vest at the end of three years thereafter, but only upon the achievement of specified performance criteria. For the 2007 grants, the target number of restricted shares will vest on January 11, 2010, if, on January 1, 2010, the Company's total three year net asset value ("NAV") return meets or exceeds the three year total NAV return of a hypothetical portfolio comprised of a 50/50 blend of the S&P 500 Index and the Lipper Large Cap Core Mutual Fund Average ("Hypothetical Portfolio"), with a lesser percentage or no shares being earned if the Company's total NAV return trails that of the Hypothetical Portfolio, depending on the level of underperformance on that date. In addition, if, on January 1, 2010, the Company's three year total NAV return exceeds that of the Hypothetical Portfolio, an additional number of

shares will be earned and vest, depending on the level of outperformance. For the 2006 grants, the target number of restricted shares will vest at the end of three years, with certain percentages of shares being deemed to have been earned based on achieving performance goals over specified intervening time periods. The first-one sixth of the target number of shares were earned on January 1, 2007, because the Company's one year total NAV return exceeded that of the Hypothetical Portfolio on that date. The next one-third of the target number of shares were earned on January 1, 2008, because the Company's two year total NAV return exceeded that of the Hypothetical Portfolio on that date. The remaining 50% of the target number of shares will be deemed to have been earned if, on January 1, 2009, the Company's three year total NAV return meets or exceeds that of the Hypothetical Portfolio, with a lesser percentage or no shares being earned if the Company's total NAV return trails that of the Hypothetical Portfolio, depending on the level of underperformance. In addition, as with the 2007 grants, additional shares will be earned and vest if the Company's three year total NAV return exceeds that of the Hypothetical Portfolio, depending on the level of outperformance on that date. Dividends and capital gains paid on the Company's shares of Common Stock ("dividends") will be paid on all of the target number of shares of restricted stock, when such dividends are paid on the Common Stock, except that no dividends or capital gains will be paid on any shares that are forfeited due to the failure to achieve the performance criteria described above. The basis for the portfolio managers' cash incentive and equity incentive compensation determinations for Petroleum is the same as for Adams, except that the portion of the cash incentive based upon fund performance uses the Dow Jones Oil and Gas Index and the S&P 500 Index as the benchmarks in a 80/20 ratio, over a one and three year period, and the benchmarks used to measure fund performance for equity incentive compensation is a hypothetical portfolio comprised of a 80/20 blend of the Dow Jones Oil and Gas Index and the S&P 500 Index. All of the above information is as of December 31, 2007, except as noted.

(4) Using a valuation date of December 31, 2007, Mr. Ober beneficially owns equity securities in Registrant of over \$1,000,000. Mr. Truta beneficially owns equity securities in Registrant of over \$1,000,000.

Item 10. Submission of Matters to a Vote of Security Holders.

There were no material changes to the procedures by which shareholders may recommend nominees to the Registrant's board of directors made or implemented after the Registrant last provided disclosure in response to the requirements of Item 7(d)(2)(ii)(G) of Schedule 14A (17 CFR 240.14a-101), or this Item.

Item 11. Controls and Procedures.

Conclusions of principal officers concerning controls and procedures.

(a) As of February 28, 2008, an evaluation was performed under the supervision and with the participation of the officers of Registrant, including the principal executive officer (PEO) and principal financial officer (PFO), of the effectiveness of Registrant's disclosure controls and procedures. Based on that evaluation, the Registrant's officers, including the PEO and PFO, concluded that, as of February 28, 2008, the Registrant's disclosure controls and procedures were reasonably designed so as to ensure that material information relating to the Registrant is made known to the PEO and PFO.

(b) There have been no significant changes in the Registrant's internal control over financial reporting (as defined in Rule 30a-3(d) under the Investment Company Act of 1940 (17 CFR 270.30a-3(d)) that occurred during the Registrant's last fiscal half-year that has materially affected, or is reasonably likely to materially affect, the Registrant's internal control over financial reporting.

Item 12. Exhibits attached hereto. (Attach certifications as exhibits)

(1) Not applicable. See Registrant's response to Item 2, above.

(2) Separate certifications by the Registrant's principal executive officer and principal financial officer, pursuant to Section 302 of the Sarbanes-Oxley Act of 2002 and required by Rule 30a-2 under the Investment Company Act of 1940, are attached.

Signatures:

Pursuant to the requirements of the Securities Exchange Act of 1934 and the Investment Company Act of 1940, the Registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.

I, Douglas G. Ober, certify that:

1. I have reviewed this report on Form N-CSR of The Adams Express Company;

2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;

3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations, changes in net assets, and cash flows (if the financial statements are required to include a statement of cash flows) of the registrant as of, and for, the periods presented in this report;

4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940) and internal control over financial reporting (as defined in Rule 30a-3(d) under the Investment Company Act of 1940) for the registrant and have:

(a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;

(b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;

(c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of a date within 90 days prior to the filing date of this report based on such evaluation; and

(d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the second fiscal quarter of the period covered by this report that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and

5. The registrant's other certifying officer(s) and I have disclosed to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):

(a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize, and report financial information; and

(b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
