STATEMENTS OF CHANGES IN NET ASSETS

NOTES TO FINANCIAL STATEMENTS

1. Significant Accounting Policies

The Adams Express Company (the Company) is registered under the Investment Company Act of 1940 as a diversified investment company. The Company is an internally-managed fund whose investment objectives are preservation of capital, the attainment of reasonable income from investments, and an opportunity for capital appreciation.

The accompanying financial statements were prepared in accordance with accounting principles generally accepted in the United States of America, which require the use of estimates made by Company management. Management believes that estimates and security valuations are appropriate; however, actual results may differ from those estimates, and the security valuations reflected in the financial statements may differ from the value the Company ultimately realizes upon sale of the securities.

Affiliated Companies -- Investments in companies 5% or more of whose outstanding voting securities are held by the Company are defined as "Affiliated Companies" in Section 2(a)(3) of the Investment Company Act of 1940.

Security Transactions and Investment Income -- Investment transactions are accounted for on the trade date. Gain or loss on sales of securities and options is determined on the basis of identified cost. Dividend income and distributions to stockholders are recognized on the ex-dividend date, and interest income is recognized on the accrual basis.

Security Valuation -- Investments in securities traded on a national security exchange are valued at the last reported sale price on the day of valuation. Over-the-counter and listed securities for which a sale price is not available are valued at the last quoted bid price. Short-term investments (excluding purchased options) are valued at amortized cost which approximates fair value. Purchased and written options are valued at the last quoted asked price.

The Company adopted Financial Accounting Standard Board Statement of Financial Accounting Standards No. 157, Fair Value Measurements ("FAS 157"), effective January 1, 2008. There was no impact on the fair value of assets individually or in aggregate upon adoption. In accordance with FAS 157, fair value is defined as the price that the Company would receive upon selling an investment in an orderly transaction to an independent buyer. FAS 157 established a three-tier hierarchy to establish classification of fair value measurements, summarized as follows:

- Level 1 -- fair value is determined based on market data obtained from independent sources; for example, quoted prices in active markets for identical investments,
- Level 2 -- fair value is determined using other assumptions obtained from independent sources; for example, quoted prices for similar investments,
- Level 3 -- fair value is determined using the Company's own assumptions, developed based on the best information available in the circumstances.

The Company's investments at June 30, 2008 are classified as follows:

*****Comprised of short-term investments and securities lending collateral.

2. Federal Income Taxes

The Company's policy is to distribute all of its taxable income to its stockholders in compliance with the requirements of the Internal Revenue Code applicable to regulated investment companies. Therefore, no federal income tax provision is required. For federal income tax purposes, the identified cost of securities at June 30, 2008 was \$1,078,603,181 and net unrealized appreciation aggregated \$213,620,973, of which the related gross unrealized appreciation and depreciation were \$361,956,158 and \$148,335,185, respectively.

Distributions are determined in accordance with income tax regulations which may differ from generally accepted accounting principles. Accordingly, annual reclassifications are made within the Company's capital accounts to reflect income and gains available for distribution under income tax regulations. Any income tax-related interest or penalties would be classified as income tax expense.

3. Investment Transactions

The Company's investment decisions are made by a committee of management, and recommendations to that committee are made by the research staff.

Purchases and sales of portfolio securities, other than options and short-term investments, during the six months ended June 30, 2008 were \$108,005,817 and \$103,510,389, respectively. Options may be written (sold) or purchased by the Company. When the Company writes an option, an amount equal to the premium received by the Company is recorded as a liability and is subsequently adjusted to the current fair value of the option written. Premiums received from unexercised put/call options are treated as realized gains from investments, premiums received from exercised put options reduces the cost basis of the securities purchased, and premiums received from exercised call options are added to the proceeds from the sale of the underlying security in determining whether there is a realized gain or loss. The Company as writer of an option bears the risks of possible illiquidity of the option markets and the unfavorable change in the price of the security underlying the written option. The risk is limited to the premium originally paid for the option. A schedule of outstanding option contracts as of June 30, 2008 can be found on page 12.

Transactions in written covered call and collateralized put options during the six months ended June 30, 2008 were as follows:

4. Capital Stock

The Company has 10,000,000 authorized and unissued preferred shares, \$0.001 par value.

On December 27, 2007, the Company issued 2,381,872 shares of its Common Stock at a price of \$13.945 per share (the average market price on December 10, 2007) to stockholders of record on

November 21, 2007 who elected to take stock in payment of the year-end distribution from 2007 capital gain and investment income. In addition, 597 shares were issued at a weighted average price of \$14.00 per share as dividend equivalents to holders of deferred stock units and restricted stock units under the 2005 Equity Incentive Compensation Plan.

During 2008, the Company has issued 392 shares of its Common Stock at a weighted average price of \$12.97 per share as dividend equivalents to holders of deferred stock units and restricted stock units under the 2005 Equity Incentive Compensation Plan.

The Company may purchase shares of its Common Stock from time to time at such prices and amounts as the Board of Directors may deem advisable.

Transactions in Common Stock for 2008 and 2007 were as follows:

5. Retirement Plans

The Company's non-contributory qualified defined benefit pension plan ("qualified plan") covers all employees with at least one year of service. In addition, the Company has a non-contributory nonqualified defined benefit plan which provides eligible employees with retirement benefits to supplement the qualified plan. Benefits are based on length of service and compensation during the last five years of employment.

The funded status of the plans is recognized as an asset (overfunded plan) or a liability (underfunded plan) in the Statement of Assets and Liabilities. Changes in the prior service costs and accumulated actuarial gains and losses are recognized as accumulated other comprehensive income, a component of net assets, in the year in which the changes occur.

The Company's policy is to contribute annually to the plans those amounts that can be deducted for federal income tax purposes, plus additional amounts as the Company deems appropriate in order to provide assets sufficient to meet benefits to be paid to plan participants. During the six months ended June 30, 2008, the Company did not contribute to the plans. The Company does not anticipate making any contribution to the overfunded qualified plan in 2008.

The following table aggregates the components of the plans' net periodic pension cost:

The Company also sponsors a defined contribution plan that covers substantially all employees. For the six months ended June 30, 2008, the Company expensed contributions of \$84,817. The Company does not provide postretirement medical benefits.

6. Equity-Based Compensation

Although the Stock Option Plan of 1985 ("1985 Plan") has been discontinued and no further grants will be made under this plan, unexercised grants of stock options and stock appreciation rights granted in 2004 and prior years remain outstanding. The exercise price of the unexercised options and related stock appreciation rights is the fair market value on date of grant, reduced by the per share amount of capital gains paid by the Company during subsequent years. All options and related stock appreciation rights terminate 10 years from date of grant, if not exercised.

A summary of option activity under the 1985 Plan as of June 30, 2008, and changes during the six month period then ended, is presented below:

The options outstanding as of June 30, 2008 are set forth below:

Compensation cost resulting from stock options and stock appreciation rights granted under the 1985 Plan is based on the intrinsic value of the award, recognized over the award's vesting period, and remeasured at each reporting date through the date of settlement. The total compensation cost/(credit) recognized for the six months ended June 30, 2008 was \$(161,490).

The 2005 Equity Incentive Compensation Plan ("2005 Plan"), adopted at the 2005 Annual Meeting, permits the grant of stock options, restricted stock awards and other stock incentives to key employees and all non-employee directors. The 2005 Plan provides for the issuance of up to 3,413,131 shares of the Company's Common Stock, including both performance and nonperformance-based restricted stock. Performance-based restricted stock awards vest at the end of a specified three year period, with the ultimate number of shares earned contingent on achievement of certain performance targets. If performance targets are not achieved, all or a portion of the performance-based awards are forfeited and become available for future grants. Nonperformance-based restricted stock awards vest ratably over a three year period and nonperformance-based restricted stock units (granted to non-employee directors) vest over a one year period. It is the current intention that employee grants will be performance-based. The 2005 Plan provides for accelerated vesting in the event of death or retirement. Non-employee directors also may elect to defer a portion of their cash compensation, with such deferred amount to be paid by delivery of deferred stock units. Outstanding awards are granted at fair market value on grant date. The number of shares of Common Stock which remains available for future grants under the 2005 Plan at June 30, 2008 is 3,258,668 shares.

A summary of the status of the Company's awards granted under the 2005 Plan as of June 30, 2008, and changes during the six month period then ended, is presented below:

Compensation costs resulting from awards granted under the 2005 Plan are based on the fair value of the award on grant date (determined by the average of the high and low price on grant date) and recognized on a straight-line basis over the requisite service period. For those awards with performance conditions, compensation costs are based on the most probable outcome and, if such goals are not met, compensation cost is not recognized and any previously recognized compensation cost is reversed. The total compensation costs for restricted stock granted to employees for the period ending June 30, 2008 were \$247,205. The total compensation costs for restricted stock units granted to non-employee directors for the period ended June 30, 2008 were \$53,968. As of June 30, 2008, there were total unrecognized compensation costs of \$731,029, a component of additional capital surplus, related to nonvested equity-based compensation arrangements granted under the 2005 Plan. Those costs are expected to be recognized over a weighted average period of 1.79 years. The total fair value of shares vested during the six month period ended June 30, 2008 was \$106,363.

7. Officer and Director Compensation

The aggregate remuneration paid during the six months ended June 30, 2008 to officers and directors amounted to \$1,665,343, of which \$167,281 was paid as fees and compensation to directors who were not officers. These amounts represent the taxable income to the Company's officers and directors and therefore differ from the amounts reported in the accompanying Statement of Operations that are recorded and expensed in accordance with generally accepted accounting principles.

8. Portfolio Securities Loaned

The Company makes loans of securities to brokers, secured by cash deposits, U.S. Government securities, or bank letters of credit. The Company accounts for securities lending transactions as secured financing and receives compensation in the form of fees or retains a portion of interest on the investment of any cash received as collateral. The Company also continues to receive interest or dividends on the securities loaned. The loans are secured at all times by collateral of at least 102% of the fair value of the securities loaned plus accrued interest. The market value of the loaned securities is calculated based upon the most recent closing prices and any additional required collateral is delivered to the Company on the next business day. Gain or loss in the fair value of the securities loaned that may occur during the term of the loan will be for the account of the Company. At June 30, 2008, the Company had securities on loan of \$102,136,348 and held collateral of \$106,477,312, consisting of an investment trust fund which may invest in money market instruments, commercial paper, repurchase agreements, U.S. Treasury Bills, and U.S. agency obligations.

This report, including the financial statements herein, is transmitted to the stockholders of The Adams Express Company for their information. It is not a prospectus, circular or representation intended for use in the purchase or sale of shares of the Company or of any securities mentioned in the report. The rates of return will vary and the principal value of an investment will fluctuate. Shares, if sold, may be worth more or less than their original cost. Past performance is not indicative of future investment results.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Stockholders of
The Adams Express Company:

In our opinion, the accompanying statement of assets and liabilities, including the schedule of investments, and the related statements of operations and of changes in net assets and the financial highlights present fairly, in all material respects, the financial position of The Adams Express Company (the "Company") at June 30, 2008, the results of its operations, the changes in its net assets and the financial highlights for each of the periods presented, in conformity with accounting principles generally accepted in the United States of America. These financial statements and financial highlights (hereafter referred to as "financial statements") are the responsibility of the Company's management; our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these financial statements in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits, which included confirmation of securities at June 30, 2008 by correspondence with the custodian and brokers, provide a reasonable basis for our opinion.
