ANNUAL REPORT
MARCH 31, 2006

INSURED MUNICIPAL INCOME FUND INC.

May 15, 2006

DEAR SHAREHOLDER,

We are pleased to present you with the annual report for Insured Municipal Income Fund Inc. (the "Fund") for the fiscal year ended March 31, 2006.

PERFORMANCE

Over the one-year period, the Fund returned 4.29% on a net asset value basis and 9.51% on a market price basis. Over the same period, the median returns for the Fund's peer group, the Lipper Insured Municipal Debt Funds (Leveraged), were 4.70% and 9.21% based on net asset value and market price, respectively. Finally, the Fund's benchmark, the Lehman Brothers Municipal Bond Index (the "Index"), returned 3.81% for the period. (For more performance information, please refer to "Performance at a Glance" on page 6.)

The Fund continued to use leverage during the period, which was approximately 40% of total assets as of March 31, 2006. While short-term rates rose over the period and increased the Fund's borrowing costs, this leverage still had a positive effect on the Fund's income during the reporting period, as the yields on the Fund's longer-term bonds more than offset the borrowing costs. Leverage

magnifies returns on both the upside and on the downside, creating a wider range of returns within the Fund's peer group.

AN INTERVIEW WITH PORTFOLIO MANAGER KEVIN MCINTYRE

Q. HOW WOULD YOU DESCRIBE THE ECONOMIC ENVIRONMENT DURING THE REPORTING PERIOD?

A. Over the past 12 months, the US economy continued to strengthen, although it was forced to absorb some rather significant blows during the late summer and early fall. Energy prices, which were high throughout the year, were exacerbated after Hurricanes Katrina and Rita hit the Gulf Coast, seriously impairing the country's oil refining capacity and causing an estimated \$100 billion in damage. Shortly after

1

INSURED MUNICIPAL INCOME FUND INC.

Labor Day, oil broke \$70 a barrel and gasoline topped an average of \$3.00 per gallon nationwide.

Beginning in October, however, economic data took a turn for the better. Unemployment--despite large numbers of dislocated workers in the wake of Katrina--trended downward throughout the year, finishing the period at 4.7%, down from 5.1% in March 2005. Consumer confidence was particularly volatile during this period, but finished the year strong. Finally, GDP remained relatively solid throughout the period. Although final data put fourth quarter 2005 GDP growth at 1.7%, advance estimates for the first quarter of 2006 showed a significant rebound, with the economy growing at 4.8%, the highest it has been in nearly three years.

Q. HOW DID THE FEDERAL RESERVE BOARD (THE "FED") REACT TO THESE ECONOMIC CONDITIONS?

A. The Fed--headed by its new chairman, Ben Bernanke--continued its tightening campaign, raising the federal funds rate 25 basis points on eight separate occasions during the reporting period, and once more after the period ended, bringing the rate to 5.00%. (The federal funds rate is the interest rate banks charge each other for overnight loans.)

The market consensus seems to be that the Fed may be near the end of this current tightening policy (the Fed has raised rates at 16 consecutive meetings since June 2004). While we can't be certain exactly when the Fed will pause or end its current policy, we believe it is unlikely that 2006 will be the year of uninterrupted rate increases that 2005 was.

Q. HOW DID THE MUNICIPAL BOND MARKET PERFORM IN THIS ENVIRONMENT?

A. The municipal bond market on the whole outperformed Treasuries throughout the

past year. Although municipal bonds saw their yields rise along with Treasuries' during the year, on a percentage basis, their performance was stronger. This outperformance was most significant on the longer end of the yield curve. The 30-year area of the curve, in fact, was the best-performing segment of the municipal bond market during the reporting period. The one exception to municipal bonds' outperformance trend was in issues on the short end of the curve, which lagged similarly dated Treasuries.

Q. IN GENERAL TERMS, HOW DID YOU POSITION THE PORTFOLIO?

A. Over the past year, we believed that yields would continue to rise in concert with the Fed's tightening cycle, and as a result, we maintained a defensive duration position. During this period we opportunistically extended our duration approximately one year in order to better position

2

INSURED MUNICIPAL INCOME FUND INC.

the Fund versus its peer group and the Index. In terms of yield-curve positioning, we continued to overweight securities with maturities of 20 years and longer, and decreased our position in the 10- to 15-year area of the curve. Both moves benefited the portfolio on an absolute basis, as the longer end of the curve performed better than other areas, including the intermediate area. However, the Fund's peers held a larger exposure to the 30-year area of the curve, and this detracted somewhat from the Fund's relative performance.

Q. FROM A SECTOR STANDPOINT, WHAT WERE IMPORTANT POSITIONS FOR THE FUND?

A. We strive to maintain a well-diversified portfolio regardless of market conditions, and as a result, the Fund holds bonds in a number of different industry sectors and subsectors. Over the past year, however, we focused particularly on the water and airport sectors. Our research indicates that the water sector tends to have stronger revenue and earnings stability than some other sectors of the municipal market, even in changing economic climates. We found relative value in the water sector versus other sectors, and given the sector's relative stability, we added selectively to positions there, making it the Fund's largest sector position.

Meanwhile, the airport sector continued to rebound during the period. A significant portion of airport sector bonds are subject to the Alternative Minimum Tax (AMT), and tend to offer higher yields. During the period, we purchased NYC IDA revenue bonds for the Terminal One Group Association. The bonds are rated A3/BBB+, are subject to AMT and have performed well over this period. In addition, these bonds helped us to diversify the credit quality of the portfolio. At period end, airport bonds represented 8.4% of the Fund's total investments, up from 3.3% six months ago.

While our long-term outlook for the healthcare sector as a whole remains negative, we see positive trends developing for certain healthcare providers that have stable or improving finances and strong market share. With that in mind, we have selectively added to our holdings in this sector, and performance has been solid in recent months. Nonetheless, we remained underweight to the sector on the whole, which ultimately detracted from relative returns.

Although the tobacco sector posted very strong performance again during the reporting period, we continued to avoid it, which detracted from performance during the period. We do not believe the potential rewards in the tobacco sector are commensurate with the risks our analysis indicates these bonds entail. In an attempt to concentrate Fund

3

INSURED MUNICIPAL INCOME FUND INC.

assets on risks we feel are likely to be compensated, we minimized our exposure to the sector.

Q. DID THE FUND FOCUS ON ANY SPECIFIC STATES OR REGIONS?

A. From a regional standpoint, we continued to focus on states that exhibited improved fiscal health and offered attractively valued municipal bonds.

Issues that we believe met that definition included long-term California bonds and New York securities. While we continued to find opportunities in Texas, we found New York bonds particularly attractive during the year and increased our exposure rather significantly. These three states combined represented nearly 60% of the Fund's total investments as of period end.

Q. WHAT FACTORS DO YOU BELIEVE WILL AFFECT THE FUND OVER THE COMING MONTHS?

A. We will continue to monitor a number of factors, including inflation and the overall strength of the economy, both of which will likely play a role in the Fed's future decisions on interest rates. The direction and magnitude of interest rate changes will continue to play a significant role in our duration strategy, as we seek to mitigate the effects of rising rates on the portfolio. Overall, the portfolio remains well diversified, and we anticipate continuing to seek out tax-advantaged yield opportunities while maintaining liquidity.

INSURED MUNICIPAL INCOME FUND INC.

NOTES TO FINANCIAL STATEMENTS

ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES

Insured Municipal Income Fund Inc. (the "Fund") was incorporated in Maryland on February 18, 1993, and is registered with the Securities and Exchange Commission under the Investment Company Act of 1940, as amended, as a closed-end diversified management investment company. The Fund's investment objective is to achieve a high level of current income that is exempt from federal income tax, consistent with the preservation of capital. There can be no assurance that the Fund's investment objective will be achieved.

In the normal course of business the Fund may enter into contracts that contain

a variety of representations or that provide indemnification for certain liabilities. The Fund's maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Fund that have not yet occurred. However, the Fund has not had prior claims or losses pursuant to these contracts and expects the risk of loss to be remote.

The preparation of financial statements in accordance with U.S. generally accepted accounting principles requires the Fund's management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from those estimates. The following is a summary of significant accounting policies:

VALUATION OF INVESTMENTS--The Fund calculates its net asset value based on the current market value, where available, for its portfolio securities. The Fund normally obtains market values for its securities from independent pricing sources and broker-dealers. Independent pricing sources may use last reported sale prices, current market quotations or valuations from computerized "matrix" systems that derive values based on comparable securities. A matrix system incorporates parameters such as security quality, maturity and coupon, and/or research and evaluations by its staff, including review of broker-dealer market price quotations, if available, in determining the valuation of the portfolio securities. If a market value is not available from an independent pricing source for a particular security, that security is valued at fair value as determined in good faith by or under the direction of the Fund's Board of Directors (the "Board"). Various factors may be reviewed in order to make a good faith determination of a security's fair value. These factors may include, but are not limited to, the type and cost of the security; contractual or legal restrictions on resale of the security; relevant financial or business developments of the issuer; actively traded similar or related securities; conversion or exchange rights on the security;

INSURED MUNICIPAL INCOME FUND INC.

NOTES TO FINANCIAL STATEMENTS

related corporate actions; and changes in overall market conditions. If events occur that materially affect the value of securities (particularly non-U.S. securities) between the close of trading in those securities and the close of regular trading on the New York Stock Exchange, the securities are fair valued. The amortized cost method of valuation, which approximates market value, generally is used to value short-term debt instruments with sixty days or less remaining to maturity, unless the Board determines that this does not represent fair value. Securities traded in the over-the-counter ("OTC") market are valued at the last bid price available on the valuation date prior to valuation.

INVESTMENT TRANSACTIONS AND INVESTMENT INCOME--Investment transactions are recorded on the trade date. Realized gains and losses from investment transactions are calculated using the identified cost method. Interest income is recorded on an accrual basis. Discounts are accreted and premiums are amortized as adjustments to interest income and the identified cost of investments.

FUTURES CONTRACTS--Upon entering into a financial futures contract, the Fund is required to deposit in a separate account with the futures broker through which the transaction was effected an amount of cash and/or securities equal to a certain percentage of the contract amount. This amount is known as the "initial margin". Subsequent payments, known as "variation margin", are made or received by the Fund each day, depending on the daily fluctuations in the value of the underlying financial futures contracts. Such variation margin is recorded for financial statement purposes on a daily basis as unrealized gain or loss until the financial futures contract is closed, at which time the net gain or loss is reclassified to realized gain or loss on futures. Variation margin calls could be substantial in the event of adverse price movements.

Using financial futures contracts involves various market risks. If the Fund was unable to liquidate a futures position due to the absence of a liquid secondary market or the imposition of price limits, it could incur substantial losses and would continue to be subject to market risk with respect to the position. In addition, the Fund would continue to be required to make variation margin payments and might be required to maintain the position being hedged or to maintain cash or securities in a separate account. Furthermore, certain characteristics of the futures market might increase the risk that movements in the prices of the financial futures contracts might not correlate perfectly with movements in the prices of the investments being hedged, including temporary

NOTES TO FINANCIAL STATEMENTS

for margin will be maintained at the futures counterparty and may be subject to risks or delays if the counterparty becomes insolvent.

INTEREST RATE SWAP AGREEMENTS--The Fund may enter into interest rate swap agreements for hedging purposes and to seek to increase the return of the Fund. This type of swap is an agreement that obligates two parties to exchange a series of cash flows at specified intervals based upon or calculated by reference to a specified interest rate(s) for a specified amount. The payment flows are usually netted against each other, with the difference being paid by one party to the other.

Risks may arise as a result of the failure of the counterparty to the swap contract to comply with the terms of the contract. The loss incurred by the failure of a counterparty is generally limited to the net interest payment to be received by the Fund. Therefore, the Fund considers the creditworthiness of the counterparty to a swap contract in evaluating potential credit risk.

The Fund accrues for interim payments on swap contracts on a daily basis, with the net amount recorded within unrealized appreciation/depreciation on swap contracts in the Statement of Assets and Liabilities. Once interim payments are settled in cash, the net amount is recorded as realized gain/loss on swaps, in addition to realized gain/loss recorded upon the termination of swap contracts in the Statement of Operations. Fluctuations in the value of swap contracts are recorded for financial statement purposes as unrealized appreciation or depreciation of swaps.

At March 31, 2006, the Fund had a forward interest rate swap whose effective date of the exchange of cash flows is May 22, 2006 with the following terms:

DIVIDENDS AND DISTRIBUTIONS--The Fund intends to pay monthly dividends to common shareholders at a rate level that over time will result in the distribution of all of the Fund's net investment income remaining after the payment of dividends on any outstanding auction preferred shares. The dividend rate on the common stock is adjusted as necessary to reflect the earnings rate of the Fund.

Dividends and distributions to common

shareholders are recorded on the ex-dividend date. Dividends to auction preferred shareholders are accrued daily. The amount of dividends from net investment income and distributions from net realized capital gains is determined in accordance with federal income tax regulations, which may differ from U.S. generally accepted accounting principles. These "book/tax" differences are either considered temporary or permanent in nature. To the extent these differences are permanent in nature, such amounts are reclassified within the capital accounts based on their federal tax-basis treatment; temporary differences do not require reclassification.

The Fund follows an investment policy of investing primarily in municipal obligations of various states. Economic changes affecting those states and certain of their public bodies and municipalities may affect the ability of the issuers within those states to pay interest on, or repay principal of, municipal obligations held by the Fund.

INVESTMENT ADVISOR AND ADMINISTRATOR

The Board had approved an investment advisory and administration contract ("Advisory Contract") with UBS Global Asset Management (US) Inc. ("UBS Global AM"), under which UBS Global AM had served as investment advisor and administrator of the Fund. UBS Global AM is an indirect wholly owned asset management subsidiary of UBS AG, an internationally diversified organization with headquarters in Zurich and Basel, Switzerland and operations in many areas of the financial services industry. In accordance with the Advisory Contract, the Fund paid UBS Global AM an investment advisory and administration fee, which was accrued weekly and paid monthly, at the annual rate of 0.90% of the Fund's average weekly net assets applicable to holders of common and auction preferred shares. UBS Global AM had agreed to waive 0.30% of the advisory and administration fee, so that the Fund's effective fee was 0.60% of average weekly net assets applicable to holders of common and auction preferred shares. This waiver continued indefinitely unless the Board agreed to any change. At March 31, 2006, the Fund owed UBS Global AM \$263,496, which is composed of \$395,243 of investment advisory and administration fees less fees waived of \$131,747. For the year ended March 31, 2006, UBS Global AM waived \$1,562,674 of investment advisory and administration fees from the Fund. (After the end of the fiscal period, the Advisory Contract was transferred to an affiliate of UBS Global AM as explained in the Subsequent Event note further below.)

ADDITIONAL INFORMATION REGARDING COMPENSATION TO AFFILIATE OF A BOARD MEMBER

Effective March 1, 2005, Professor Meyer Feldberg accepted the position of senior advisor to Morgan Stanley, resulting in him becoming an interested director of the Fund. The Fund has been informed that Professor Feldberg's role at Morgan Stanley does not involve matters directly affecting any UBS funds. Fund transactions are executed through Morgan Stanley based on that firm's ability to provide best execution of the transactions. During the year ended March 31, 2006, the Fund purchased and sold certain securities (e.g., fixed income securities) in principal trades with Morgan Stanley having an aggregate value of \$106,633,007. Morgan Stanley received compensation in connection with these trades, which may have been in the form of a "mark-up" or "mark-down" of the price of the securities, a fee from the issuer for maintaining a commercial paper program, or some other form of compensation. Although the precise amount of this compensation is not generally known by UBS Global AM, UBS Global AM believes that under normal circumstances it represents a small portion of the total value of the transactions. In addition, Morgan Stanley may participate as a broker-dealer in auctions for the Fund's Auction Preferred Shares and receive compensation therefore. Amounts received by Morgan Stanley, if any, will vary depending upon that firm's participation in an auction, and such amounts are calculated and paid by the auction agent from money provided by the Fund.

AUCTION PREFERRED SHARES

The Fund has issued 800 shares of auction preferred shares Series A, 800 shares of auction preferred shares Series B, 800 shares of auction preferred shares Series C, 600 shares of auction preferred shares Series D, 600 shares of auction preferred shares Series E and 600 shares of auction preferred shares Series F, which are referred to herein collectively as the "APS." All shares of each series of APS have a liquidation preference of \$50,000 per share plus an amount equal to accumulated but unpaid dividends upon liquidation.

Dividends and/or capital gain distributions, which are cumulative, are generally reset every 7 days for each Series of APS. Dividend rates ranged from 1.890% to 3.250% and capital gain distribution rates ranged from 2.000% to 5.250% for the year ended March 31, 2006.

The Fund is subject to certain restrictions relating to the APS. Failure to comply with these restrictions could preclude the Fund from declaring any

NOTES TO FINANCIAL STATEMENTS

distributions to common shareholders or repurchasing common shares and/or could trigger the mandatory redemption of APS at liquidation value.

The APS are entitled to one vote per share and, unless otherwise required by law, will vote with holders of common stock as a single class, except that the APS will vote separately as a class on certain matters, as required by law. The holders of the APS have the right to elect two directors of the Fund.

The redemption of the Fund's APS is outside of the control of the Fund because it is redeemable upon the occurrence of an event that is not solely within the control of the Fund.

PURCHASES AND SALES OF SECURITIES

For the year ended March 31, 2006, aggregate purchases and sales of portfolio securities, excluding short-term securities, were \$301,019,203 and \$275,669,131, respectively.

FEDERAL TAX STATUS

The Fund intends to distribute substantially all of its tax-exempt income and any taxable income and to comply with the other requirements of the Internal Revenue Code applicable to regulated investment companies. Accordingly, no provision for federal income taxes is required. In addition, by distributing during each calendar year substantially all of its net investment income, net realized capital gains and certain other amounts, if any, the Fund intends not to be subject to a federal excise tax.

The tax character of distributions paid during the fiscal years ended March 31, 2006 and March 31, 2005 were as follows:

DISTRIBUTIONS PAID FROM:	2006	2005

Net unrealized depreciation of investments, futures and swaps	(13,818)

realization for tax purposes of unrealized gains/losses on certain securities that were marked-to-market and premium amortization adjustments.

For federal income tax purposes, the tax cost of investments and the components of net unrealized depreciation of investments at March 31, 2006 were as follows:

Gross unrealized appreciation	2,530,289
Gross unrealized depreciation	(2,957,715)
Net unrealized depreciation	\$(427,426)

To reflect reclassifications arising from permanent "book/tax" differences for the year ended March 31, 2006, the Fund's undistributed net investment income was decreased by \$389,428 and accumulated net realized loss from investment activities and futures was decreased by \$389,428.

These differences are primarily due to premium amortization adjustments.

SUBSEQUENT EVENT

After the end of the fiscal period covered by this report, the investment advisory and administration contract (the "Advisory and Administration Contract") between the Fund and UBS Global AM was transferred to UBS Global Asset Management (Americas) Inc. ("UBS Global AM (Americas)"), a sister company of UBS Global AM.

In connection with an internal reorganization involving UBS Global AM and UBS Global AM (Americas), the Fund's Board of Directors approved the transfer of the Advisory and Administration Contract from UBS Global AM to UBS Global AM (Americas) effective April 1, 2006. All of the personnel of UBS Global AM who previously provided investment advisory services to the Fund continue to provide investment advisory services to the Fund as employees of UBS Global AM (Americas). UBS Global AM (Americas) has the same contractual rights and responsibilities under the Advisory and Administration Contract as those previously held by UBS Global AM. The related fee waiver arrangement disclosed above continues in effect, but now with UBS Global AM (Americas). UBS Global AM and UBS Global AM (Americas) are both indirect wholly owned subsidiaries of UBS AG.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM
ERNST & YOUNG LLPThe Board of Directors and Shareholders
Insured Municipal Income Fund Inc.

We have audited the accompanying statement of assets and liabilities of Insured Municipal Income Fund Inc.(the "Fund"), including the portfolio of investments, as of March 31, 2006, and the related statement of operations for the year then

ended, the statements of changes in net assets applicable to common shareholders for each of the two years in the period then ended, and the financial highlights for each of the five years in the period then ended. These financial statements and financial highlights are the responsibility of the Fund's management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. We were not engaged to perform an audit of the Fund's internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control over financial reporting.

Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements and financial highlights, assessing the accounting principles used and significant estimates made by management and evaluating the overall financial statement presentation. Our procedures included confirmation of securities owned as of March 31, 2006, by correspondence with the custodian and brokers. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of Insured Municipal Income Fund Inc. at March 31, 2006, the results of its operations for the year then ended, the changes in its net assets applicable to common shareholders for each of the two years in the period then ended, and the financial highlights for each of the five years in the period then ended, in conformity with U.S. generally accepted accounting principles.

Additionally, you may obtain copies of Forms N-Q from the Fund upon request by calling 1-800-647 1568.

DIVIDEND REINVESTMENT PLAN

The Fund's Board has established a Dividend Reinvestment Plan (the "Plan") under which all common shareholders whose shares are registered in their own names, or in the name of UBS Financial Services Inc. or its nominee, will have all dividends and other distributions on their shares of common stock automatically reinvested in additional shares of common stock, unless such common shareholders elect to receive cash. Common shareholders who elect to hold their shares in the name of another broker or nominee should contact such broker or nominee to determine whether, or how, they may participate in the Plan. The ability of such shareholders to participate in the Plan may change if their shares are transferred into the name of another broker or nominee.

A common shareholder may elect not to participate in the Plan or may terminate participation in the Plan at any time without penalty, and common shareholders who have previously terminated participation in the Plan may rejoin it at any time. Changes in elections must be made in writing to the Fund's transfer agent and should include the shareholder's name and address as they appear on the share certificate or in the transfer agent's records. An election to terminate participation in the Plan, until such election is changed, will be deemed an election by a common shareholder to take all subsequent distributions in cash. An election will be effective only for

40

GENERAL INFORMATION (UNAUDITED)

DIVIDEND REINVESTMENT PLAN (CONCLUDED)

distributions declared and having a record date at least ten days after the date on which the election is received.

Additional shares of common stock acquired under the Plan will be purchased in the open market, on the NYSE or otherwise, at prices that may be higher or lower than the net asset value per share of the common stock at the time of the purchase. The number of shares of common stock purchased with each dividend will be equal to the result obtained by dividing the amount of the dividend payable to a particular shareholder by the average price per share (including applicable brokerage commissions) that the transfer agent was able to obtain in the open market. The Fund will not issue any new shares of common stock in connection with the Plan. There currently is no charge to participants for reinvesting dividends or other distributions. The transfer agent's fees for handling the reinvestment of distributions will be paid by the Fund. However, each participant pays a pro rata share of brokerage commissions incurred with respect to the transfer agent's open market purchases of common stock in connection with the reinvestment of distributions. The automatic reinvestment of dividends and other distributions in shares of common stock does not relieve participants of any income tax that may be payable on such distributions.

Experience under the Plan may indicate that changes are desirable. Accordingly, the Fund reserves the right to amend or terminate the Plan with respect to any dividend or other distribution if notice of the change is sent to Plan participants at least 30 days before the record date for such distribution. The Plan also may be amended or terminated by the transfer agent by at least 30 days' written notice to all Plan participants. Additional information regarding the Plan may be obtained from, and all correspondence concerning the Plan should be directed to, the transfer agent at PFPC Inc., P.O.Box 43027, Providence, Rhode Island 02940-3027. For further information regarding the Plan, you may also contact the transfer agent directly at 1-800-331 1710.

INSURED MUNICIPAL INCOME FUND INC.

BOARD APPROVAL OF INVESTMENT ADVISORY AND ADMINISTRATION AGREEMENT (UNAUDITED)

BACKGROUND--At a meeting of the board of Insured Municipal Income Fund Inc. (the "Fund") on February 8, 2006, the members of the board, including the board members who are not "interested persons" of the Fund ("Independent Directors"), as defined in the Investment Company Act of 1940, as amended, considered and approved the transfer of the current Investment Advisory and Administration Agreement between the Fund and UBS Global Asset Management (US) Inc. ("UBS Global AM") to UBS Global Asset Management (Americas) Inc. ("UBS Global Americas"), an affiliate of UBS Global AM. The board received information and materials about the proposed transfer both at its November 2005 meeting and at its February 2006 meeting. In considering the approval of the transfer of the Investment Advisory and Administration Agreement (such transfer referred to as the "New Investment Advisory and Administration Agreement"), the board reviewed a memorandum from UBS Global AM explaining the reasons for the proposed transfer, including that the transfer would result in management efficiencies and eliminate the duplication of functions that had resulted from having two registered investment advisors, UBS Global AM and UBS Global Americas, providing investment advisory services to the UBS funds. The board also reviewed material provided by UBS Global AM on UBS Global Americas, including that the current portfolio manager for the Fund would not change as a result of the transfer from

UBS Global AM to UBS Global Americas. The board also noted management's explanation that any expenses resulting from the transfer would be borne by UBS Global AM, and not the Fund. The board also received and reviewed a draft of an opinion to be provided by Dechert LLP, counsel to the Fund, that the proposed transfer would not be considered an "assignment" of the existing investment advisory contract under the Investment Company Act of 1940, as amended, because (1) there would be no change of actual control of the investment advisor to the Fund; (2) there would be no change of management of the investment advisor to the Fund; (3) the nature, quality and extent of the investment advisory services provided by UBS Global AM under the current Investment Advisory and Administration Agreement would not change as a result of the transfer; (4) the transfer would not result in any change in the fundamental investment processes, investment strategies or investment techniques currently employed by UBS Global AM portfolio managers or other investment professionals in providing services to the Fund; and (5) there would be no change to any of the material terms of the Investment Advisory and Administration Agreements as a result of the transfer. The board took note of its knowledge of UBS Global AM and its

42

INSURED MUNICIPAL INCOME FUND INC.

BOARD APPROVAL OF INVESTMENT ADVISORY AND ADMINISTRATION AGREEMENT (UNAUDITED)

affiliates, including UBS Global Americas, and the current Investment Advisory and Administration Agreement for the Fund, including the extensive materials it had reviewed at its annual contract renewal meeting in the summer of 2005 for the Fund, and noted that it had at that time received a memorandum from its independent legal counsel discussing, among other things, the duties of board members in considering approval of advisory and administration agreements.

In its consideration of the approval of the New Investment Advisory and Administration Agreement, the board considered the following factors:

NATURE, EXTENT AND QUALITY OF THE SERVICES UNDER THE NEW INVESTMENT ADVISORY AND ADMINISTRATION AGREEMENT--The board took note that at its last annual contract renewal meeting for the Fund, in connection with its review of the Fund's advisory and distribution agreements, it had received and considered extensive information regarding the nature, extent and quality of management services generally provided to the Fund by UBS Global AM under the Investment Advisory and Administration Agreement, and a description of the administrative and other services rendered to the Fund and its shareholders by UBS Global AM and UBS Global AM's role in coordinating providers of other services to the Fund, including custody, accounting and transfer agency services. The board considered management's explanation that UBS Global Americas would provide identical services under the New Investment Advisory and Administration Agreement as were provided by UBS Global AM under the current Investment Advisory and Administration Agreement. The board's evaluation of the services to be provided by UBS Global Americas to the Fund took into account the board's knowledge and familiarity gained as board members of funds in the UBS New York fund complex, including the scope and quality of investment management and other capabilities and the quality of administrative and other services, and considered that based on the materials presented to them these services would remain the same. The board also considered, based on its knowledge of UBS Global AM and UBS Global Americas, the financial resources available to UBS Global Americas and its parent organization, UBS AG, one of the leading financial services companies in the world.

The board concluded that, overall, it was satisfied with the nature, extent and quality of services expected to be provided to the Fund under the New Investment Advisory and Administration Agreement.

43

INSURED MUNICIPAL INCOME FUND INC.

BOARD APPROVAL OF INVESTMENT ADVISORY AND ADMINISTRATION AGREEMENT (UNAUDITED)

MANAGEMENT FEES--The board noted that the current contractual management fee for the Fund under the current Investment Advisory and Administration Agreement was not proposed to be changed under the New Investment Advisory and Administration Agreement. The board also considered that at its most recent annual contract renewal meeting during the summer of 2005 it had received and reviewed information on the contractual management fee payable by the Fund to UBS Global

AM, including information of management fees paid by comparable funds. The board recognized that the current fee arrangements would not change as a result of the transfer. It also was noted that UBS Global Americas would continue the current fee waiver arrangements.

Taking all of the above into consideration, the board determined that the proposed contractual management fee was reasonable in light of the nature, extent and quality of the services proposed to be provided to the Fund under the New Investment Advisory and Administration Agreement.

FUND PERFORMANCE--The board took into consideration the reports on Fund performance received by the board at each meeting and the more extensive review and discussion of Fund performance at its most recent annual contract renewal meeting. The board also noted that the transfer would not result in any change in the fundamental investment processes, investment strategies or investment techniques of the Fund and that no changes in the current Fund personnel overseeing Fund management were proposed or anticipated as a result of the transfer.

Based on its prior review and the more updated performance information provided, the board concluded that the Fund's investment performance was satisfactory.

ADVISOR PROFITABILITY--As UBS Global Americas would be a new advisor to the Fund, profitability of UBS Global Americas in providing services to the Fund was not a primary factor considered by the board. The board did note that at its most recent annual contract renewal meeting it received and considered a profitability analysis of UBS Global AM and its affiliates in providing services to the Fund and had determined at that time that UBS Global AM's profitability was considered not excessive in light of the nature, extent and quality of the services provided to the Fund. The board also recognized that the management fee would not change as a result of the transfer and the services provided to the Fund by UBS Global Americas would be identical to those currently provided by UBS Global AM, making

44

BOARD APPROVAL OF INVESTMENT ADVISORY AND ADMINISTRATION AGREEMENT (UNAUDITED)

the profitability data received at its last contract renewal meeting still of some relevance. UBS Global AM also noted that a significant benefit of the transfer of the Investment Advisory and Administration Agreement to UBS Global Americas was to reduce a regulatory capital requirement imposed on UBS Global AM, which was expected to permit the eventual transfer of certain financial assets owned by UBS Global AM to satisfy regulatory requirements to other parts of UBS AG for other corporate purposes.

ECONOMIES OF SCALE--The board noted that it had previously considered whether economies of scale in the provision of services to the Fund would be passed along to the shareholders during its most recent consideration of the annual renewal of the Investment Advisory and Administration Agreement and did not see the need to reconsider this factor again in the context of the transfer of the agreement to a sister investment advisor.

OTHER BENEFITS TO UBS GLOBAL AMERICAS--The board considered other benefits received by UBS Global Americas and its affiliates as a result of its proposed relationship with the Fund, including the potential opportunity to offer additional products and services to Fund shareholders. The board also considered the benefits to be realized when certain assets of UBS Global AM were freed from certain regulatory requirements and were available to be paid as a dividend from one part of UBS AG to another part of UBS AG for such purposes as UBS AG deemed appropriate.

In light of the costs of providing investment management, administrative and other services to the Fund and UBS Global America's expected ongoing commitment to the Fund, the profits and other ancillary benefits that UBS Global Americas and its affiliates received or would receive were considered reasonable.

In light of all of the foregoing, the board approved the New Investment Advisory and Administration Agreement for the Fund.

No single factor reviewed by the board was identified by the board as the principal factor in determining whether to approve the New Investment Advisory and Administration Agreement. The Independent Directors were advised by separate

independent legal counsel throughout the process. The board discussed the proposed approval of the New Investment Advisory and Administration Agreement in a private session with their independent legal counsel at which no representatives of UBS Global AM or UBS Global Americas were present.

There were no "all other fees" required to be approved pursuant to paragraph (c)(7)(ii) of Rule 2-01 of Regulation S-X during the fiscal years indicated above.

(e) (1) Audit Committee Pre-Approval Policies and Procedures:

The registrant's Audit Committee ("audit committee") has adopted an "Audit Committee Charter (Amended and Restated as of May 12, 2004)" (the "charter"). The charter contains the audit committee's pre-approval policies and procedures. Reproduced below is an excerpt from the charter regarding pre-approval

policies and procedures:

The [audit] Committee shall:

2. Pre-approve (a) all audit and permissible non-audit services(1) to be provided to the Fund and (b) all permissible non-audit services to be provided by the Fund's independent auditors to UBS Global [AM] and any Covered Service Providers, if the engagement relates directly to the operations and financial reporting of the Fund. In carrying out this responsibility, the Committee shall seek periodically from UBS Global [AM] and from the independent auditors a list of such audit and permissible non-audit services that can be expected to be rendered to the Fund, UBS Global [AM] or any Covered Service Providers by the Fund's independent auditors, and an estimate of the fees sought to be paid in connection with such services. The Committee may delegate its responsibility to pre-approve any such audit and permissible non-audit services to a sub-committee consisting of the Chairperson of the Committee and two other members of the Committee as the Chairperson, from time to time, may determine and appoint, and such sub-committee shall

report to the Committee, at its next regularly scheduled meeting after the sub-committee's meeting, its decision(s). From year to year, the Committee shall report to the Board whether this system of pre-approval has been effective and efficient or whether this Charter should be amended to allow for pre-approval pursuant to such policies and procedures as the Committee shall approve, including the delegation of some or all of the Committee's pre-approval responsibilities to other persons (other than UBS Global [AM] or the Fund's officers).

(1) The Committee will not approve non-audit services that the Committee believes may taint the independence of the auditors. Currently, permissible non-audit services include any professional services (including tax services) that are not prohibited services as described below, provided to the Fund by the independent auditors, other than those provided to the Fund in connection with an audit or a review of the financial statements of the Fund. Permissible non-audit services may not include: (i) bookkeeping or other services related to the accounting records or financial statements of the Fund; (ii) financial information systems design and implementation; (iii) appraisal or valuation services, fairness opinions or contribution-in-kind reports; (iv) actuarial services; (v) internal audit outsourcing services; (vi) management functions or human resources; (vii) broker or dealer, investment adviser or investment banking services; (viii) legal services and expert services unrelated to the audit; and (ix) any other service the Public Company Accounting Oversight Board determines, by regulation, is impermissible.

Pre-approval by the Committee of any permissible non-audit services is not required so long as: (i) the aggregate amount of all such permissible non-audit services provided to the Fund, UBS Global [AM] and any service providers controlling, controlled by or under common control with UBS Global [AM] that provide ongoing services to the Fund ("Covered Service Providers") constitutes not more than 5% of the total amount of revenues paid to the independent auditors (during the fiscal year in which the permissible non-audit services are provided) by (a) the Fund, (b) its investment adviser and (c) any entity controlling, controlled

by, or under common control with the investment adviser that provides ongoing services to the Fund during the fiscal year in which the services are provided that would have to be approved by the Committee; (ii) the permissible non-audit services were not recognized by the Fund at the time of the engagement to be non-audit services; and (iii) such services are promptly brought to the attention of the Committee and approved by the Committee (or its delegate(s)) prior to the completion of the audit.

- (e) (2) Services approved pursuant to paragraph (c) (7) (i) (C) of Rule 2-01 of Regulation S-X:

common control with the investment adviser that provides ongoing services to the registrant that were not pre-approved pursuant to paragraph (c) (7)(ii) of Rule 2-01 of Regulation S-X is compatible with maintaining the principal accountant's independence.

ITEM 5. AUDIT COMMITTEE OF LISTED REGISTRANTS.

The registrant has a separately designated standing audit committee (the "Audit Committee") established in accordance with Section 3(a)(58)(A) of the Securities Exchange Act of 1934, as amended. The Audit Committee is comprised of the following board members: Mr. Armstrong, Mr. Beaubien, Mr. Bernikow, Mr. Burt, Mr. Garil and Ms. Higgins.

ITEM 6. SCHEDULE OF INVESTMENTS.

Included as part of the report to shareholders filed under Item 1 of this form.

ITEM 7. DISCLOSURE OF PROXY VOTING POLICIES AND PROCEDURES FOR CLOSED-END

MANAGEMENT INVESTMENT COMPANIES.

The registrant's Board of Directors believes that the voting of proxies on securities held by the registrant is an important element of the overall investment process. As such, the Board has delegated the responsibility to vote such proxies to the registrant's advisor. Following is a summary of the proxy voting policy of the advisor.

CORPORATE GOVERNANCE PHILOSOPHY, VOTING GUIDELINES AND POLICY SUMMARY

The proxy voting policy of UBS Global AM is based on its belief that voting rights have economic value and must be treated accordingly. Generally, UBS Global AM expects the boards of directors of companies issuing securities held by its clients to act as stewards of the financial assets of the company, to exercise good judgment and practice diligent oversight with the management of the company. While there is no absolute set of rules that determines appropriate corporate governance under all circumstances and no set of rules will guarantee ethical behavior, there are certain benchmarks, which, if substantial progress is made toward, give evidence of good corporate governance. UBS Global AM may delegate to an independent proxy voting and research service the authority to exercise the voting rights associated with certain client holdings. Any such delegation shall be made with the direction that the votes be exercised in accordance with UBS Global AM's proxy voting policy.

When UBS Global AM's view of a company's management is favorable, UBS Global AM generally supports current management initiatives. When UBS Global AM's view is that changes to the management structure would probably increase shareholder value, UBS Global AM may not support existing management proposals. In general, UBS Global AM (1) opposes proposals which act to entrench management; (2) believes that boards should be independent of company management and composed of persons with requisite skills, knowledge and experience; (3) opposes structures which impose financial constraints on changes in control; (4) believes remuneration should be commensurate with responsibilities and performance; and (5) believes that appropriate steps should be taken to ensure the independence of auditors.

UBS Global AM has implemented procedures designed to identify whether it has a conflict of interest in voting a particular proxy proposal, which may arise as a result of its or its affiliates' client relationships,

marketing efforts or banking and broker/dealer activities. To address such conflicts, UBS Global AM has imposed information barriers between it and its affiliates who conduct banking, investment banking and broker/dealer activities and has implemented procedures to prevent business, sales and marketing issues from influencing our proxy votes. Whenever UBS Global AM is aware of a conflict with respect to a particular proxy, its appropriate local corporate governance

committee is required to review and agree to the manner in which such proxy is voted.

ITEM 8. PORTFOLIO MANAGERS OF CLOSED-END MANAGEMENT INVESTMENT COMPANIES.

- (a) (1) Name - Kevin McIntyre
Title - Vice President
Length of Service - Since 2005

Business Experience Last 5 Years - Mr. McIntyre is a director (since March 2003) and portfolio manager (since October 2005) of UBS Global Asset Management (Americas) Inc. and UBS Global Asset Management (US) Inc. (collectively, the "UBS Global AM - Americas Region" or "Advisor"). He is also Head of Municipal Trading since 2002. Prior to that he was a trader and assistant portfolio manager with the UBS Global AM - Americas Region. Mr. McIntyre is a vice president of two investment companies (consisting of two portfolios) for which UBS Global AM - Americas Region or one of its affiliates serves as investment advisor, sub-advisor or manager.

- (a) (2) (iv) Conflicts.

The management of the registrant and other accounts by a portfolio manager could result in potential conflicts of interest if the registrant and other accounts have different objectives, benchmarks and fees because the portfolio manager and his team must allocate time and investment expertise across multiple accounts, including the registrant. The portfolio manager and his team manage the registrant and other accounts utilizing an approach that groups similar accounts characteristics and objectives. The Advisor manages accounts according to their respective objectives, including where possible, those accounts that have specific investment restrictions. Accordingly, portfolio holdings, position sizes, and industry and sector exposures tend to be similar across accounts, which may minimize the potential for conflicts of interest.

If a portfolio manager identifies a limited investment opportunity that may be suitable for more than one account, the registrant may not be able to take full advantage of that opportunity due to an allocation of filled purchase or sale orders across all eligible model portfolios and accounts. To deal with these situations, the Advisor has adopted procedures for allocating portfolio trades across multiple accounts to provide fair treatment to all accounts.

The management of personal accounts by a portfolio manager may also give rise to potential conflicts of interest. The Advisor and the registrant have adopted Codes of Ethics that govern such personal trading but there is no assurance that the Codes will adequately address all such conflicts.

(a) (3) Compensation.

The compensation received by portfolio managers at UBS Global AM - Americas Region, including Mr. McIntyre, includes a base salary and incentive compensation as detailed below. Overall compensation can be grouped into three categories: Base Salary, Annual bonuses and UBS AG Equity. Base salary is fixed compensation used to recognize the experience, skills and knowledge that the investment professionals bring to their roles. Annual bonuses are correlated with performance and are based on three components: 1) the firm's overall business success; 2) the performance of the respective asset class and/or investment mandate; and 3) an individual's specific contribution to the firm's results. Senior investment professionals may receive a portion of their annual performance-based incentive in the form of deferred or restricted UBS AG shares or employee stock options. Broader equity share ownership is encouraged for all employees through "Equity Plus." This long-term incentive program gives employees the opportunity to purchase UBS stock with after-tax funds from their bonus or salary. Two UBS stock options are given for each share acquired and held for two years.
